Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Leo Rising:

There is a distinct part of your outer personality that expresses itself very much like a Leo. You are warm, playful, self-expressive and you know how to add a touch of drama to life.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Leo-personal recognition--will be integrated into almost every area of life in some way.

The Sun is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on the Sun.

Jupiter in soft aspect to Asc.:

You have a self-indulgent streak in you. Even when you realize that a particular action may have undesirable consequences, you often make the decision to proceed regardless of outcomes. You're a risk taker. Win some; lose some.

You're fortunate because you have luck on your side, if you don't take it for granted. You'll have to develop a consistent plan of action for yourself as you may have a tendency to get sidetracked.

Neptune Conjunct or in hard aspect to Asc.:

You can be whatever you can imagine yourself to be, so, make sure you only imagine the best! You may have some inner doubts about yourself that make it difficult for others to pick up a strong impression of whom you really are. Until you cultivate a firmer picture of whom you really want to be, other people will continue to find it hard to figure out the real you. This can be a plus if you're an actor or a spy. It comes in handy if you ever need to blend into the background, too.

Your sensitive side can be like a sponge that soaks up all the woes of the world and troubled souls are often attracted to your aura. It's a fine thing to want to help, but you must learn to draw some boundaries in this regard, because you can be very vulnerable to getting sucked into other people's realities.

Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals,

the father, men in your life, children, creativity, and the real inner you.

Sun in Gemini:

Clever, social, and communicative, your general approach to life is light hearted. You can be somewhat hard to pin down because you have a wonderful natural curiosity about life. You prefer to know at least a little bit about everything. The restless nature of Gemini is quite conducive to your preference for a wide variety of experiences and mental pursuits. Geminis often won't take a particular subject into great depth, but for you, just having a taste of the smorgasbord that life offers is enough to satisfy.

This is the sign of communication in all of its various forms, whether verbal, written, or just learning for the joy of it. You like sharing what you have learned with others, and the latest news and even gossip has a hard time sneaking by you.

Because of your storehouse of bits of information, you find it easy to understand different viewpoints, and you prefer to agree with someone rather than create conflict.

Taking life too seriously is not appealing to you. "Lighten up" could be your motto and other people sense this, which generally makes you easy to be around and therefore in demand socially.

Sun in 11th house:

Your personal fulfillment is reinforced by expressing your uniqueness. Chances are you will find yourself having to work cooperatively within the framework of a group of people. The life challenge here is to work cooperatively while maintaining a certain amount of your own autonomy. You may have to make a choice about leaving the confines of a particular group and striking out on your own at some point.

You must rely on your intuition when dealing with certain associates, as this placement of the Sun can make you vulnerable to being taken advantage of by those who don't really have your best interest at heart. On the other hand, influential people may appear who can help you attain your fondest hopes and wishes.

There is a side to you that can be unpredictable, rebellious and highly independent. That which is considered to be different, unusual, or in some cases bizarre, appeals to you. You're often a step ahead of the crowd. Appreciate your own uniqueness.

Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Capricorn:

With your Moon in the sign of Capricorn, you probably have an emotional need to achieve status and success of some kind. Even if you are not the type to worship status symbols, there is a part of you that definitely enjoys attainment of these things.

You also need to be an authority figure and taking responsibility for others comes naturally to you. You have a serious minded approach to life and an earnest sense of duty toward most matters.

You can be quite sensitive about yourself and you have the ability to bypass your emotions in order to cope with disappointment and pain. This can give others the impression that you are unsympathetic or unfeeling. Capricorn doesn't like waste and the way you see it is this: why waste a lot of emotional energy on something

that will only pull you down.

This placement tends to a pessimistic outlook that unchecked can lead to episodes of depression. A well-developed sense of humor will help you overcome difficult situations. When you start to feel the blues, you can snap yourself out of it by immersing yourself in a pet project or taking some action on a desired goal.

Moon in 6th house:

You can expect many changes with respect to the work you do. This refers to jobs that you must take in order to survive vs. having a main career. Women may play key roles where your work is concerned.

You may have an emotional need for a certain amount of order in your environment. Too much clutter can make you feel edgy and irritated.

Emotional stability is enhanced by feeling useful, helping others and staying busy. Idleness and boredom promote exaggerated worries and concerns.

Jupiter Conjunct or in hard aspect to Moon:

When you become emotionally involved in a situation, you tend to blow things out of proportion. Once an emotion takes hold, it's hard for you to show restraint and then you wonder why others find it difficult to get as worked up as you are, or take you as seriously as you'd like.

When you're upset you can get careless and you cope by indulging your whims of the moment.

Neptune in soft aspect to Moon:

You are sensitive, empathetic, and impressionable. Your imagination is pronounced.

Your perception of the world around you is based on your ability to instinctively pick up the subtle vibrations in the environment that other people seem oblivious to. Many times you are led through life on a kind of invisible radar that puts you in the just the right place at the right time.

Pluto in soft aspect to Moon:

When you allow yourself to become emotionally upset, it's difficult for you to imagine that life will ever get better while the episode is in progress. You feel everything with every fiber of your being and crisis leaves you feeling completely drained. However, you will eventually stabilize and go on with life. Every time you're forced to emotionally regenerate yourself, you emerge more evolved at the deepest level of your being whether you are aware of it or not.

Chapter 4: Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

Mercury in Taurus:

You learn by experience and steady application. You prefer dealing with hard facts and whatever you learn you do not easily forget.

You express yourself verbally in a manner that is often slow and measured, and you may have a voice that is attractive to others.

Voluntary change doesn't come naturally to you, and sometimes rigid thought patterns and opinions can be difficult to shift.

Mercury in 10th house:

This can indicate a career where the ability to communicate is employed. Or, somehow the field of communications can be related to your career. You speak with authority. Other people pick this up even if you aren't making a conscious effort to do so.

You might end up in more than one profession before settling into one. Your main career can require some travel.

Chances are that your ideas can come into public view. Use the power of words to influence authority figures.

Venus Conjunct or in hard aspect to Mercury:

You are often tempted to change your viewpoint in order to avoid conflict with others. This can create an inner tension around your communications. This aspect calls for balance between understanding others and being true to your own expression of ideas.

Saturn Conjunct or in hard aspect to Mercury:

You have a great ability to concentrate your mental abilities toward achieving the edge in the workplace. You make a formidable, if not unbeatable opponent in a debate. Obstacles and challenges can be overcome by sheer determination and focus.

Common sense and practicality can turn into suspicion and fear of the unknown, unless a conscious effort is made to find a balance.

You sometimes censor your own communications which can give others the impression that you're too serious or shy. If you feel held back by this, do some work on spontaneous self-expression. Try taking a course in public speaking.

Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Taurus:

Affectionate and devoted, you generally make a cooperative and loyal partner. In relationships, whether with a lover or a good friend, Venus in Taurus can make you overly attached to a situation that in truth it would be better to leave. Usually this is due to avoidance of change, and change is something that Taurus doesn't feel especially comfortable with. The same qualities that make you devoted and loyal can turn into jealousy and possessiveness if not checked.

You absolutely and totally enjoy all of the good things life has to offer. This is a very sensual placement for Venus. Even your clothing must feel good as well as look good.

You have a deep appreciation for beauty in all its forms, especially those that express natural simplicity and lasting value.

Venus in 10th house:

You enjoy being in a position of responsibility and/or authority. You may even get personal satisfaction out of the effort and focus required to achieve your ultimate goals.

If you choose a career in the arts or music, then Venus here will help promote your aims. A career that focuses on the beautification of anything is also a distinct possibility. At any rate, the career should be something you will receive personal happiness from doing.

Sometimes this indicates a partner who is success and status oriented.

Saturn Conjunct or in hard aspect to Venus:

You take relationships seriously and you may have had your share of disappointments by bonding with those who don't display the same level of commitment. Because of this, you might become pessimistic and overly cautious which can then create self fulfilling prophecies. Associations may then be sought out for reasons of self preservation and status in an attempt to avoid emotional injury.

Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

Mars in Virgo:

With Mars in Virgo, you have a good amount of self discipline at your command. The planet of action in the sign of work combines to create conditions conducive to workaholism.

You can be a perfectionist and actions are systematically undertaken. There is a desire to be useful and you don't mind using your energy to help others. This placement supports the surgeon / craftsman / organizer.

Mars in 1st house:

You're active, impulsive, and you have a strong sense of survival. Hot-blooded and hot-headed, you would do well to practice looking before you leap at least some of the time as this placement can make you a bit more accident prone than most.

Even if you don't actively pursue competitive situations, this placement reinforces the ability to keep your head above water whenever "it's every man for himself."

The general physical constitution is vital and robust.

Uranus Conjunct or in hard aspect to Mars:

You don't usually like to take advice and you can't stand to have your freedom imposed upon. You're something of a rebel at heart and you crave adventure and new experiences. Your temper can be explosive.

This aspect can make you accident prone due to accelerated actions and a lack of carefulness. Patience will have to come from other chart factors. A sense of caution needs to be consciously developed in order to avoid mishaps.

Crisis situations stimulate your survival instincts and you can do some of your finest work under the influence

of a pressing deadline.

Pluto Conjunct or in hard aspect to Mars:

No one can ever accuse you of being wishy-washy or half hearted. Intensity of purpose and fearlessness mark your approach to going after what you want. If you feel threatened, you can be ruthless or even downright cruel. You are extremely goal oriented and if you use this aspect with wisdom, then nothing can stop you from achieving almost anything you wish.

Get in touch with and cultivate your compassionate side.

Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

Jupiter in Aries:

Much of your success in life is directly related to your ability to initiate action. Waiting around for life to hand you what you desire is definitely not your style. You don't waste time sitting around wondering if a particular action will produce results that you may later regret; you just do it.

You possess an abundance of energy, assertiveness, and optimism. You are quick to recognize opportunities before they pass you by and you know how to make the most of them.

Try not to over extend yourself. Practice thinking twice before you act at least some of the time. Make sure that your generosity is well placed.

Jupiter in 9th house:

Your nature is philosophical and intellectual. You probably see God as a beneficial and merciful being.

Foreign people, places and things can be fortunate for you. The great outdoors calls to you from time to time and you may even end up living in the country if your desire to get away is strong.

Truth, fairness and high ideals go a long way with you.

You might get reckless every so often because Jupiter here can be very lucky and it's easy to feel invincible sometimes.

This is an excellent placement for teachers and preachers.

Chapter 8: Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

Saturn in Aquarius:

You are independent, level-headed and you have strong opinions on matters that are important to you. This is a lifetime to develop your ability to work cooperatively with large groups of people. If you become involved in anything that promotes wide-scale social change, you will work very diligently and faithfully toward that end.

At some point you will learn the value of maintaining your own unique identity while at the same time functioning in a cooperative manner with other people. You will also most likely face some important issue(s) which will require you to stand your ground in the face of peer pressure.

Reminder: many of your associations are people with whom you have some kind of past life issue to deal with. It is important to try to deal with these situations in an enlightened manner so that everyone involved can be absolved.

Regular exercise will keep the general circulatory system toned up. Participate in activities that you find personally appealing in order to motivate yourself, as a sedentary lifestyle will only promote the potential for circulatory problems.

Saturn in 7th house:

This is a lifetime to perfect the art of one-on-one relationships. As a marriage partner you will last through even the worst of times and your close friendships can endure for a lifetime.

Sometimes there exists a kind of karmic bond with a significant other that will challenge you to seriously re-evaluate your approach to the relationship. Avoid automatically coloring new relationships with previous disappointments. Heal yourself and move on renewed.

You may attract a partner who is mature and/or success oriented.

Saturn is Retrograde

No one can give you a hard time like you can give yourself. You rarely feel satisfied with your own efforts. Constantly nagging inner voices of self criticism and unrealistic ideas of perfection can censor spontaneous creativity and squelch action before you even get started. You'll have to practice self trust. "Let go and let God" is a good mantra for you to mentally recite until your subconscious gets the message. Here's another: I will do my best and forget the rest. I will do my best and forget the rest. I will do my best and....

Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Virgo:

Uranus was in the sign of Virgo for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be analytical and reality oriented. Many will take an unusual approach to scientific advances, health related issues, and the work environment.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 1st house:

You can be a genius when it comes to projecting your personality. There is something unusual about your

demeanor that makes other people want to pay attention to you. You make it difficult for other people to fit you neatly into a particular category and you like it that way. Keep 'em guessing. You're a free spirit who gets a kick out of doing the unexpected.

Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

Neptune in Scorpio:

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: a breakdown in sexual boundaries, positive spiritual transformation or extreme confusion along those lines, and a high level of deeply perceptive insights about yourself or others.

Your house position will show where Neptune affects your life on an individual basis.

Neptune in 4th house:

Something about your upbringing lacked solidity and you could have an idealistic view of one or both parents. If your childhood home life was less than ideal, you have the ability to imagine it as you would have preferred it be. As a result, your own home reflects your imaginative ideal. Often with this placement the home environment is more creatively inspired than one that is traditionally picture perfect.

Pluto in soft aspect to Neptune:

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

Neptune is Retrograde

Ever heard the term "suffer in silence?" Does it apply to you? Ask yourself why you find it so difficult to share your real pain with others. Someone made you feel guilty a long time ago and now a part of you lives as though you're trying to make up for whatever the original so-called transgression was. You want to heal the whole world. Start with forgiving yourself in no uncertain terms. Unload other people's shabby misconceptions which have been foisted upon you and find the tranquility you deserve.

Chapter 11: Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

Pluto in Virgo:

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Virgo you're part of the generation that can experience radical changes in scientific discovery, the medical profession, diet and nutrition and the work ethic.

On a personal level, those with Pluto in Virgo tend to be aware of health related issues and are analytically minded, perfectionist and discerning.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

Pluto in 2nd house:

Somewhere along the line your financial picture can undergo a complete change. This is the classic "rags to riches" placement. If financial problems seem chronic, you must make sure that all dealings with money are completely open and aboveboard.

This is a lifetime in which your value system will undergo a complete change on some level. An obsession with material aims can become a stumbling block. Gratitude and appreciation for whatever you have is the key to evolution.

Chapter 12: Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

North Node in Cancer:

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

This is a lifetime to learn how to accept help from others. By allowing your needs to be acknowledged and provided for by others you will be able to more effectively nurture and care for those who require it. This time around, you can incorporate heartfelt warmth into your desire to protect and nourish those you care about.

Giving based on emotional satisfaction is what it's all about. Discover your instinctive ability to sincerely empathize with the feelings of others.

North Node in 12th house:

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: give of yourself without an underlying motivation of reward. Practice random acts of kindness... just because you can.

Discover that it's possible to be alone and not feel lonely. This happens when one realizes their connection to the Infinite Mind, also described as the Creator, the Universal Will, or a Higher Power.

This is a lifetime to learn the value of working behind the scenes in some capacity. This means that outer recognition is not the aim this time around, even though that might happen naturally. Often this can take the form of connecting and working through large public institutions caring for those who must be secluded from society.

Whatever form the actual experiences take, this placement encourages the development of humility, compassion and spiritual awareness.

MC in soft aspect to Mars:

You're well equipped to handle the competitive situations that arise in the workplace and your willingness to work tirelessly on projects wins favor with the boss. You don't go out of your way to be pushy with authority figures, but you do see them as equals and you're not shy about voicing your opinions. You're excellent at getting things going and you have plenty of innovative ideas to contribute.

A career in the military, professional athletics, marketing, or in supervisory positions is supported. Choose a career that allows you to draw on your natural ability to lead, compete and meet new challenges.

MC in soft aspect to Uranus:

Your highest attainment, which often takes the form of career, may well be what one would describe as either ahead of the times or unusual in some way. Given a choice you'd rather be your own boss and there is a strong potential for owning your own business. Stuff working environments are not for you and if you find yourself assigned to a conservative, subordinate position you'll eventually find a way to break free.

Here are some career possibilities to consider: broadcaster, astrologer, high tech communications worker, computer whiz, airline pilot or airline worker, inventor, electrician, social activist, consultant, humanitarian, and anything that falls into the New Age category.

Four or more Earth Signs

Stable and grounded, you will learn all about how to bring what you dream about into practical reality. Manifestation is the key here. Develop a habit of finishing whatever you start. Enjoy and appreciate the bounty that the earth offers.

You like feeling useful and you can develop a real talent for solid accomplishment in life. People admire your willingness to take responsibility for getting things done.

Chapter 13: House Rulerships

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more

"predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

Ruler of 1st house in 11th:

Your friends, acquaintances and other large groups of people will play important roles in your life overall. Humanitarian pursuits and organizations dedicated to some kind of wide-scale social change may become significant to you also.

You may strongly identify with those things that are considered to be ahead of the times, or with anything that breaks with societal traditions.

Being in a position of responsibility or authority is something you place a high value on. Additionally, some of your earnings may be put back into your career in order to optimize your potential in this area.

Ruler of 3rd house in 10th:

Your thinking is geared towards your career goals and chances are your ideas may come before the public in some way. You speak with authority and you also want your ideas to come to the attention of your boss or other authority figures. Ruler of 7th house in 1st:

Partnerships, such as marriage or best friends, have an important impact on your outlook on life. Your partner is a reflection of you and you can gain insight into some of your own motivations by observing the behavior of those closest to you. You'll have to be willing to take an honest inventory of yourself in order to learn from these experiences.

Other people in general are strongly influenced by your personality and you can project more power than you think you can.

Ruler of 8th house in 4th:

Other people's money may come your way towards the second half of your life or you can inherit some real estate.

A partner's resources could have an impact on your home or the place where you live.

Your attitude towards expressing deep intimacy with another person was strongly influenced by your upbringing.

Ruler of 9th house in 1st:

Your belief system, which encompasses a personal philosophy on life or perhaps some religious tradition, has an important bearing on your outlook on life.

Anything that allows you to broaden your thinking and your life experience is highly significant for you.

Ruler of 10th house in 10th:

You have a strong sense of duty towards your career and/or your public reputation.

You will probably rise to a position of authority within your career and you could have a strong desire to be your own boss.

An authority figure, perhaps even your father, influenced your career or your attitude towards it.

Ruler of 11th house in 10th:

Friends, groups of people, or organizations with a common cause could be directly related to your career somehow.

You can create large scale social changes through participating in governmental affairs. You may have friends and acquaintances who are in positions of authority.
