When two planets are separated by a particular angle, astrologers believe that the influences of the two planets combine to create a strong effect on a person. In ancient astrology and much modern astrology five angles are considered very important: 0, 60, 90, 120, and 180 degrees. These important angles are known as "aspects". In modern times, many astrologers also interpret aspects of 30, 45, 135, and 150 degrees. Some astrologers also use a variety of other angles, such as 72, 144, 40, 80, and many other angles. In the late 20th century a branch of astrology known as "harmonic astrology" developed and practitioners of harmonic astrology believe that there are many hundreds of different aspects, so harmonic astrology has greatly increased the complexity of astrological interpretation. Not all astrologers are convinced that these additional aspects are important. Harmonic astrologers also group together various aspects which they believe to have a similar influence. For example, the fractions of 1/9 (40 degrees), 2/9 (80 degrees), and 4/9 (160 degrees) of a circle are known as "9th harmonic aspects". Given below are interpretations of the following 6 aspects: (1) the semisextile aspect, which is 30 degrees, (2) 24th harmonic aspects, (3) 16th and 32nd harmonic aspects, (4) quintiles and biquintiles, also known as 5th harmonic aspects, (5) the septile, biseptile, and triseptile aspects, also known as 7th harmonic aspects, and (6) the novile, binovile, and quadnovile aspects, also known as 9th harmonic aspects. These additional aspects are known as minor aspects or harmonic aspects. There are many other aspects used in harmonic astrology, but these aspects are among the most important and powerful, and hence this report describes some of the most important Harmonic Highlights in your astrology chart.

I recommend that you read this report after reading an interpretation based primarily on the most commonly used aspects. I think you will be impressed by the ways in which the aspects interpreted in this report describe major issues in your life and in your personality that are not described as clearly by the more commonly used aspects. Hopefully this analysis of harmonic aspects will be useful and helpful to you. If you are an astrologer and you currently do not use harmonic aspects, reading several Harmonic Highlights Reports of friends and family may make you a believer in harmonic aspects. Adding these additional aspects to your interpretation does add greater complexity and detail to your analysis, and keeping a clear, integrated view of the astrology chart becomes more difficult, but astrology is likely to grow in sophistication as it evolves and develops in the 21st century.

Aspects noted as "very strong" in the report have an orb of less than 1/3 the allowable orb and appear at the beginning of the report. "Strong" aspects have an orb of less than 2/3 the allowable orb, and aspects that have an orb that is 2/3 or greater of the allowable orb are printed at the end of the report.

If there are any midpoints conjunct or opposition midpoints within a 15 minute orb, these are also interpreted. These four-planet patterns are also known as isotraps or planetary pictures.

Finally, planets conjunct or opposition the midpoint of two other planets are interpreted. These midpoint structures are also known as direct midpoint structures because the angular distance from the planet at the midpoint to each of the other two planets is the same. Direct midpoint structures with an orb of less than 15 minutes are analyzed first followed by those with a 30 minute orb, then a 1 degree orb, and finally up to a 1 1/2 degree orb. Therefore the midpoint structures with smaller orbs are interpreted first followed by midpoint structures with larger orbs.

For the benefit of astrologers, given below are the orbs used for each aspect. Note that according to harmonic theory, orbs are defined so that all harmonics occur equally often by chance, and hence the orbs are not rounded to the nearest degree.

Sun 16th harmonic (1/16) Uranus, very strong (Orb: 0 Deg 08 Min):

You are a very strong individualist. You may not be flamboyant about it and others may not realize the extent to which you march to the beat of your own drummer, but down deep you are a free spirit who likes to make his/her own rules and is skeptical of what the majority believes.

Jupiter 32nd harmonic (5/32) Pluto, very strong (Orb: 0 Deg 07 Min):

You have a deep need to grow beyond any narrow confines and restrictions that you encounter. You seek success and you achieve it, although you might also compromise on your passions in order to follow a path that brings you more money and social prestige. Your greatest fulfillment comes from activities that are successful as well as meaningful, and it may be a challenge for you to achieve both.

Venus 24th harmonic (1/24) Pluto, very strong (Orb: 0 Deg 06 Min):

You are a passionate person who can be obsessive in love relationships and you pursue the things you love with unswerving determination.

Jupiter 24th harmonic (5/24) Uranus, very strong (Orb: 0 Deg 02 Min):

You have an inner sense of enthusiasm that draws you to progressive and exciting ideas and activities. Your spirited and enthusiastic approach enables you to find opportunities and succeed in life. Your positive and enthusiastic attitude is one of your greatest assets and gifts.

Venus 5th harmonic (quintile) Jupiter, very strong (Orb: 0 Deg 32 Min):

You have a keen appreciation for good art and you may have a strong interest in cultural activities or entertainment. You appreciate and support creativity and the arts. Sports, games, and other entertainments can be very happy affairs, but you may avoid sports when the emphasis is on competition and discipline rather than creativity and amusement.

Sun 7th harmonic (biseptile) Saturn, very strong (Orb: 0 Deg 07 Min):

You have a shy, receding side that likes to withdraw and contemplate things that you find interesting. Too much light socializing makes you uncomfortable. Any activity like reading, writing, or painting that helps you delve deeply into something is good for you. You can become irritated and angry if you are unable to create this time and space in your schedule on a regular basis for an activity of this kind.

Moon 9th harmonic (quadnovile) Mercury, very strong (Orb: 0 Deg 30 Min):

You are an effective communicator on subjects of personal concern. You have a knack for making others feel welcome and accepted. You can use this gift as a counselor, teacher, parent, and in many other areas of life.

Mars 9th harmonic (quadnovile) Neptune, very strong (Orb: 0 Deg 32 Min):

You pursue your goals with a much broader perspective than most people. You incorporate a more global or universal perspective and you draw upon many different ethnic or cultural styles and religious traditions in your own life. You are open-minded and liberal, and have a strong sense of the interconnectedness of seemingly unrelated things and you are inclined to a holistic or systems approach to whatever you do.

Sun 32nd harmonic (5/32) Neptune, strong (Orb: 0 Deg 11 Min):

You have the capacity to follow a dream to realization. Your personal dreams are strong and clear. You are not destined to simply meet your needs and have a secure life. Deep inside, you are a dreamer with vision even though others may not recognize this. You must tread carefully and take practical steps to achieve your dreams. Without proper care, you can lose sight of what is really important to you and follow someone else's dream and this will ultimately leave you feeling depressed. A big challenge for you is to preserve your innocent, childlike sense of magic and wonder, and to follow your dreams.

Moon 16th harmonic (3/16) Mars, strong (Orb: 0 Deg 22 Min):

You are a quiet and determined competitor. You have the ability to focus and apply great effort and you enjoy battles and meeting obstacles more than most people. Be wary of a tendency to become angry or dissatisfied with friends, colleagues, and associates who do not share your taste for competition.

Mercury 16th harmonic (3/16) Neptune, strong (Orb: 0 Deg 20 Min):

You have a great capacity for becoming enthralled with an idea. Your childlike sense of awe and fascination for the wonders of nature, arts, or technology enable you to enjoy and appreciate life. You should preserve and express your sense of awe and wonder and to follow your dreams, even if they seem unattainable or impractical to others.

Uranus 32nd harmonic (7/32) Neptune, strong (Orb: 0 Deg 19 Min):

People who do not know you well may not realize how strong the inner child in you is. A world that is mundane and prosaic is not for you. You have a need for the inspirational, imaginative, and magical.

Sun 7th harmonic (biseptile) Mars, strong (Orb: 1 Deg 15 Min):

Areas that require persistence and discipline are most suitable for you. You are able to work in solitude and with concentration. Your approach is subtle and humble rather than flamboyant. You can succeed by your mastery of fundamentals, thoroughness, and a methodical and serious approach to your work.

Sun 7th harmonic (septile) Jupiter, strong (Orb: 0 Deg 58 Min)

You can succeed through your mature, disciplined approach to achieving goals. You are more inclined to develop a plan for success and carefully follow it rather than gamble or speculate your way to success.

Mars 7th harmonic (triseptile) Saturn, strong (Orb: 1 Deg 22 Min):

You have great stamina and a capacity for discipline that few other people have. You can excel in an area that requires practice and repetition to perfect one's technique or competency. You work quietly and very often you are more comfortable being behind the scenes rather than in the spotlight.

Jupiter 7th harmonic (septile) Saturn, strong (Orb: 0 Deg 51 Min)

You tend to be cynical and skeptical of politicians, actors, and other people often regarded as important and influential by others. You respect those who have cultivated great mastery through great dedication and training.

Uranus 9th harmonic (binovile) Neptune, strong (Orb: 0 Deg 56 Min):

You are tolerant and supportive of different life styles and attitudes. You tend to a broad, universal outlook on life, and have an inherent sense of ultimate goodness or sense of divine purpose that allows you to weather storms and avoid becoming flustered by everyday, typical frustrations. You see past superficialities and tend to view life from a more cosmic or universal perspective. Minor faults in others do not upset you, but if you ever encounter very malevolent or malicious people or circumstances, you can become very deeply affected, disturbed, troubled, worried, or unsure of how to cope with such extreme evil. In general, though, you have an inspiring, uplifting, and healing effect on others.

Mars 16th harmonic (7/16) Jupiter (Orb: 1 Deg 00 Min):

You will not settle for a life that keeps you restricted and confined. You will find a way to reach out and participate in a larger social network and sphere of influence than the one you most likely grew up in. In your quest for greater achievements do not try easy shortcuts that will not really accomplish what you want to achieve. Also, do take some satisfaction, pride and feel gratitude for what you have been able to accomplish rather than be solely focused on the next goal. On the other hand, also avoid the tendency to substitute material success for a more meaningful success or to become complacent with personal success that is not shared as much as it could be

Venus 24th harmonic (5/24) Neptune (Orb: 0 Deg 30 Min):

You have a strong artistic inclination. You are romantic and sensitive. You seek an element of magic and special beauty in your life and your home environment, and any other place that you stay in for long periods of time probably has a charm, beauty, or unusual quality that reflects your colorful and keen sense of beauty and imagination.

Jupiter 5th harmonic (quintile) Uranus (Orb: 3 Deg 02 Min):

You enjoy life, and probably enjoy a good game of golf, a ski trip, or a great concert or other performance on occasion. You appreciate entertaining and uplifting experiences and you manage to find them regardless of where you live.

Moon 7th harmonic (triseptile) Venus (Orb: 2 Deg 07 Min):

Most likely you are not flamboyant and exuberant in the way you express your feelings. There is a deep, serious, almost mystical side to your emotional makeup. You are drawn to places of peace and quiet and you can develop a very deep sense of satisfaction and contentment in solitude and living close to nature and also by incorporating ancient, classical, soulful, or mystical elements into your home environment.

Mars 7th harmonic (triseptile) Jupiter (Orb: 2 Deg 13 Min):

You are an excellent strategist and you are very good at developing and implementing long-range plans. You have the will power and foresight to practice, be disciplined, study or persist to achieve great goals. You are an architect, so to speak, who designs and builds a magnificent edifice over time. Others may try to sway you or distract you but your quiet, persistent efforts are likely to succeed in the long run.

Mars 9th harmonic (binovile) Uranus (Orb: 1 Deg 28 Min):

You have the ability to stir people into action. You add life to any gathering or meeting by presenting exciting ideas and enthusiasm. You become energized and enthusiastic when presented with an opportunity to

become involved with the larger community or public. You are an enthusiastic and dynamic team player.

MIDPOINTS CONJUNCT/OPPOSITION MIDPOINTS (if there are any with up to a 15 minute orb)

Sun/Uranus conjunct Venus/Pluto: (Orb: 0 Deg 12 Min):

You periodically become very excitable and intensely involved in what you are doing. You can become irresistibly drawn to musical rhythms and you may become involved in dance or music on a regular basis in your work or as a hobby. You also can mistake sexual attraction for love. Do not jump into a romantic relationship too quickly.

Sun/Jupiter conjunct Neptune/Pluto: (Orb: 0 Deg 02 Min):

You think and act on a large scale. You need an environment that provides you opportunities to grow, to spread your wings, to explore, and to be involved with many people. A narrowly focused area of specialization and/or solitude is not for you. You are a dreamer with grand visions. Follow your dreams. Be sure to back up your dreams with clear plans and good preparation as well.

Moon/Neptune opposition Mercury/Mars: (Orb: 0 Deg 01 Min):

Most likely you have a strong inclination towards poetry, religion, or metaphysical writings, and also to drawing, painting, and other art forms. You seek a soulful experience of life, and you feel drawn to ideas that have an imaginative quality or rich historical heritage. Purely rational and cognitive information does not appeal to you as much as ideas that have an emotional or imaginative element as well. You learn best in an atmosphere that is soulful and imaginative.

Venus/Jupiter conjunct Uranus/Neptune: (Orb: 0 Deg 14 Min):

At times you can be filled with feelings of enthusiasm, joy, and hope. It may be, for example, the joy and magic of Christmas night, with lights twinkling, uplifting music, and a sense of joyous expectation that you revel in. The feelings of magic, awe, and optimism may, on the other hand, be aroused by a completely different cultural or aesthetic experience, but the quality of the experience is very similar: exuberance, liveliness, a feeling of hope, and a strong sense of magic and wonder. At times your optimism and feeling that all will work out well may incline you to take risks without sufficient preparation and analysis, but sometimes your willingness to pursue an adventure can work out very well. Do not hide your sense of magic or feel that it is too childish. Also, you are likely to form a romantic relationship only with someone with whom you feel dreamily and joyously in love with, but make sure that there is also good mutual understanding and shared interests.

DIRECT MIDPOINT STRUCTURES (allowable orb = 1 1/2 degrees)

Mercury Conjunct Sun/Uranus 0 deg 35 min

You have quick reflexes, and you learn very quickly. You have the ability to pick things up quickly, invent or discover something, without knowing as many technical details as other people, or without even knowing quite

how you got the correct solution to a problem. You are clever and ingenious, but hopefully you also have patience and discipline; otherwise, you might jump impatiently from one idea to the next with little consistency.

Jupiter Conjunct Sun/Saturn 0 deg 54 min

You have good organizational skills. You are able to intuitively sense the structure and overall design and plan, and you are able to take devise reasonable strategies for achieving realistic goals. You can use your talent in the world of business or as an administrator.

Mercury Conjunct Venus/Pluto 0 deg 48 min

You enjoy art, music, and literature that is deep and moving. You have a lot of creative talent that can be expressed through many different media. You have the ability to make things that are both functional and beautiful.

Sun Opposition Mars/Saturn 0 deg 34 min

You are a dedicated and responsible worker. If an area interests you, then you will put in long hours and do whatever it takes to achieve the goal. Any great achievement requires the hard work and sacrifice of people; you are one of those people that makes this achievement possible, even though you may not receive the credit you deserve.

Mercury Conjunct Sun/Venus 1 deg 12 min

You succeed in areas that require a good sense of proportion, balance, or a knack for doing things that are both functional and attractive. This is so natural and innate for you, that you may take it for granted, or not consciously recognize how it affects the manner in which you do many ordinary daily activities. Many crafts and skills require your talent for doing things with good taste and aesthetic awareness.

Pluto Conjunct Sun/Mercury 1 deg 23 min

When you get interested in a subject, you like to go all the way, uncovering the depths of the subject. You are a person that really loves to learn, but your love of learning ironically sometimes causes you to lose interest in academics! Memorization, the drudgery of homework, and competing for better grades are not exciting to you; what is exciting to you is discovery, and finding out the hidden causes of something. Once you uncover how something works, you can become a little fanatical about its importance and lose perspective.

Uranus Conjunct Mars/Neptune 1 deg 12 min

You do things with greater creativity and originality than others. You dislike doing a task in an ordinary manner; you prefer to improvise and embellish whatever you do. Your energy level may be erratic with bursts of energy followed by lethargy. Involve yourself in areas where your originality and imagination are rewarded, avoid stimulants, and try to maintain a balanced, healthy lifestyle.
