This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

## Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create wealth.

Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

### *Sun in Aquarius:*

Your key to prosperity is your higher mind. You have flashes of inspiration, and one good idea has the potential to make millions.

You may invent new gadgets which save time and money, or you may make new discoveries in science, electronics or astronomy. If you want to be the one who will benefit financially from your ideas, you will have to come down from the higher plane of thought at least long enough to make sure that you have patents and copyrights in place.

Your approach to money itself is likely to be innovative. Rather than deal with banks or other traditional lending institutions, you are likely to live in a co-op, work in an employee shared-profit set-up, and use barter where possible instead of money. You may even belong to a group which prints its own currency, like Unity dollars.

### *Sun in 2nd house:*

You acquire prosperity through the actual tasks that you get done. By actually building something or making something concrete, you earn the good karma of receiving something material in return, which is money.

You may actually work with money, such as in a bank. You may work in a building trade, or as a sculptor. Whatever you make is built to last, and in return for this you have financial security.

### *Sun Conjunction Venus:*

You have a natural gift for building prosperity. You combine your artistic self-expression with your sense of what will last and make a positive impression on people.

Your investments are likely to do well because you have good luck with money. You may prosper with a partner.

*Sun Square Saturn:*

On one hand, you value your self-expression. On the other hand, you are faced with what you may perceive as drudgery to make ends meet. The two goals of being yourself and making ends meet seem to be competing with each other, and you may become pessimistic. However, you need to resolve this dilemma in order to get over it and enjoy prosperity. Deal with any past emotional blocks, rather than avoid them. Consciously cultivate a positive outlook. Find ways to combine what you like to do with making money; it is just an illusion of negativity which is holding you back.

## **Chapter 2: The Moon**

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

*Moon in Sagittarius:*

Your philosophy of money is way above the outdated assumption that an economy has to be based on greed or fear. Your higher spiritual awareness guides you in living a positive approach to prosperity. You understand that if you are generous with others, they will be generous with you. Good karma is what could heal the economy, and you can be one of the leaders in implementing financial solutions and forgetting about the problems. Your positive thoughts influence your subconscious mind, and you manifest prosperity very successfully.

*Moon in 11th house:*

You feel most comfortable being in a group, and it is through your many friends and acquaintances that you can discover ways to prosper. Your mother likely had groups of people meet you in your home when you were young, and you are likely to follow suit with your own yoga classes, astrology group, or group working on a social cause. The people you meet will openly share money-making ideas for the good of all, on a plane high above competition or private ownership.

*Moon Square Part of Fortune:*

You enjoy the challenge of achieving prosperity and maintaining it. You are likely to create a happy home environment, where you can always feel nurtured and positively inspired. You strive to help others to find happiness too, and you derive great satisfaction in performing kind deeds for them and teaching them in practical ways to have faith that they are loved.

### **Chapter 3: Mercury**

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

*Mercury in Aquarius:*

You are a brilliant, innovative thinker and you could find financial prosperity in one of your unique inventions. You have a natural understanding of how wealth is first created in the mind and then carried out in everyday affairs. One good idea can be worth a million dollars! You could be a computer genius, and this may be your source of prosperity.

*Mercury in 2nd house:*

Your thinking very readily centers around money and how to earn it. You could therefore be successful in any kind of business. You like to focus on how to achieve concrete, lasting results. You are aware that if you sell a product which has value, your customers will be happy and come back. You are thus putting in place a structure which

will give you security in the future. You approach investments in the same way: Invest in something reliable now and the value of it will increase over time.

#### *Mercury Square Mars:*

It is best if your path to prosperity involves active, busy, physical work, so that your high energy level will not result in your becoming argumentative. You can cope with situations which others could not, such as being a cashier with a line-up of customers or a waiter/waitress in a busy restaurant. Your work is fast, accurate and efficient, and worthy of good financial returns.

#### *Mercury Trine Jupiter:*

This is a perfect aspect for positive thinking about prosperity. You have a superior mind and an abundance of faith. You would make an excellent motivational speaker or writer. You would know how to persuade others that the creation of wealth is possible - that prosperity is first created on the level of the mind and is then manifested. It is a matter of rising above the problem to the level where new beliefs are created, and then the relativity of the problem can be clearly seen. Use your ability to uplift others and you will attract prosperity in return. Be a lecturer, publisher, broadcaster, or spiritual leader and teach the path to a prosperous life.

#### *Mercury Opposition Pluto:*

You have ready access to depth of thought and the power of the spoken word. The challenge is to harness these intense, powerful energies and direct them towards your prosperity. You can be successful here because it is from thoughts that prosperity is created. What you affirm is what you create. So, if the thoughts you introduce with your willpower are positive and prosperity-oriented, you will have a very powerful way of producing results.

## **Chapter 4: Venus**

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in

return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

*Venus in Aquarius:*

You stand to make good money from your innovative ideas. New ideas are valuable, and others will pay you for them. You could succeed as an inventor by getting one good idea patented and then making money every time one of your inventions is sold. You could profit from anything electrical or electronic, such as computers. Your network of friends could be a good source of money-making opportunities. Your approach to investing would be unorthodox, but will still be inspired.

*Venus in 2nd house:*

You have an appreciation of the material comforts in life and the ability to acquire them. You choose pleasant work, and then you are willing to work hard and achieve the security you desire. Your partner would share your good tastes. You would likely acquire a nice house, decorated with valuable paintings and furniture. You invest in items of worth, and you could even work at advising others about good, solid investments, perhaps in a bank. Your musical talent could also be a source of income.

*Venus Square Saturn:*

You need to consciously cultivate a positive outlook about money, rather than just associate it with hard work, debt, or lack of enough money. Your past experiences may have made you very serious, but remember that this is a new moment and have positive faith. People will be more likely to hire you or do business with you if you are friendly and non-controlling. Be open to receiving money, so that you are not blocking it from coming to you. Re-define yourself as being worthy of it.

## **Chapter 5: Mars**

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

### *Mars in Scorpio:*

You are very positive and courageous in being able to turn your finances around and go from debt to riches. You have a natural understanding of financial strategies and investments, and you are aggressive about making other people's money work for you. Make sure that you use this ability in a positive, wise way, so as to attract only positive karma in return. You would be able to make money dealing with topics which others would lack the courage to touch, such as wills, taxes, insurance claims, or detective work.

### *Mars in 11th house:*

You would be happy working with a group of people who share your ideals. Everyone in the group would be equal and would receive the same amount of pay. If you run your own business, you would have a vast network of friends and acquaintance with whom you could exchange referrals. Your work would likely involve promoting your inventions and unique ideas. You could be an astrologer. You might use the internet or other electronic means to reach many people with your message.

### *Mars Trine Uranus:*

This aspect gives you tremendous ability to envision higher, inspired goals and then to work towards them. If your goals involve receiving a large amount of money in order to make the world a better place, you are likely to bring this into being. You understand how higher thoughts are the source of physical reality, and you are able to use this power. You are very original and inventive, and you could make your living coming up with new ideas for better electrical and electronic devices or for selling such devices.

### *Mars Square Pluto:*

This is an indicator of very unusual energy, willpower and intensity. It is very important that you set positive, broad-scoped, prosperity goals and work to achieve them. You have tremendous potential to accomplish more great good than most people, and to receive more rewards in return; it is essential to your life's purpose that you take the high road rather than the low road. Find an intensely positive direction for your willpower, and proceed along that path to become very fulfilled.

## **Chapter 6: Jupiter**

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

#### *Jupiter in Gemini:*

You are likely to increase your income through higher education, lecturing and travel. You communicate goodwill and positive faith to others and they respond by enhancing your prosperity in return. You could be successful in publishing or communications, perhaps through importing or exporting. You may teach in a university, as you are an excellent student and instructor, and you get along very well with many people.

#### *Jupiter in 6th house:*

You understand that health is wealth. You take excellent care of your health and have an abundance of energy. In fact, you could make a good living helping other people to keep healthy. You would teach them that positive thinking is half the battle. Your ability to study and get a good education will put you in a better financial position. You are likely to profit well from careful, low-risk investments.

## **Chapter 7: Saturn**

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

### *Saturn in Scorpio:*

You could prosper from your dependability and willingness to work hard in the area of handling other people's finances. You would be very honest in dealing with taxes, inheritances, investments, or accounting. As for your own investments, you would apply the same diligence and hard study to research the most beneficial possibilities. You understand the strategies which others try to use to get ahead, and you would not be fooled.

### *Saturn in 10th house:*

You are sure of financial and career success because of your willingness to do long, hard work to get to the top. You build a reputation for being very reliable and honest. For this, you are rewarded with a high position of trust. Be sure to maintain a positive, cheerful attitude, in spite of working hard, as this will enhance your prosperity and well-being. You are well organized and focused on concrete, practical results. You avoid taking risks with your money, and you save for the future.

### *Saturn Trine Part of Fortune:*

Your honesty, hard work, optimism and benevolence have put you in a position of lasting prosperity. You set very high goals and standards for yourself, and your karma, in return, is to be successful and happy. You have a great deal of faith and breadth of vision, so that the work you do is well guided in its direction. You set a wonderful, inspiring example for others, and you find great joy in seeing them follow in your footsteps and happily succeed.

## **Chapter 8: Uranus**

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

*Uranus in Cancer:*

You were born into a generation of people who experimented with ways of bringing economic efficiency into their housing expenses. They came up with such ideas as communes, co-ops, and condominiums. The idea was that if certain costs were shared, each individual would pay less. Different methods of child-raising were explored, such as day care, which radically changed the economy by enabling your mother to go out to work.

*Uranus in 7th house:*

You could make your living in the field of legal reform. You care about having equal rights for all. Your husband or wife could suddenly receive a significant amount of money from an unexpected source. The key to your financial well being is your bright mind and your friendly way of getting along with others. You need your independence but, at the same time, you respect the right of others to be themselves. Your partner would, therefore, be self-realized and able to be prosperous in his or her own right.

## **Chapter 9: Neptune**

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

*Neptune in Libra:*

You were born at a time when there was movement to achieve equal rights for the poor, and to treat them as equal partners. The ideals of love and compassion predominated and, even when there was not a lot of money, there was enough sharing and kindness that everyone had enough.

### *Neptune in 10th house:*

You have the rare ability to turn creative inspiration into a viable career. Your key to this is your self-discipline in a field such as art, photography, music, acting or dance. You are self-sacrificing and work hard, and you could gain a good reputation in your field. You might choose to work as a psychic or astrologer. You can show a good example to others of how to contact the higher realms.

### *Neptune Sextile Pluto:*

This aspect has to do with the age in which you were born, rather than with your prosperity as an individual. Most people alive today have this aspect in their natal chart. Economically, it is a relatively fortunate age, in which peace and financial security ultimately prevail. There are major challenges and danger to overcome, but ample opportunity for compassion and regenerative willpower to win out and solve these problems.

### *Neptune Sextile Asc.:*

Your ability to convey empathy to others would be a strong asset if you are a therapist or counselor. You might also consider a career in music, perhaps accompanying a singer. You could be a clairvoyant or psychic. You are readily able to put a picture in someone else's mind, and you could work as a facilitator of creative visualization techniques and artistic expression.

## **Chapter 10: Pluto**

The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

### *Pluto in Leo:*

You were born in an age when much of the economy was centered around games and toys for growing children. The emphasis for adults, too, was on recreation. Activities such as camping and going to summer resorts were popular. Construction of schools was a major economic activity, because of the large number of children of school age. On the international level, there was the development of super-powers and the need to harmonize their theories of economics.

*Pluto in 8th house:*

You have tremendous potential to make money by handling other people's money provided that you are honest and that you create good, positive karma in your dealings. You have an innate understanding of how the global economy and large-scale investments work, and you could advise others in their dealings. Because of your intensity and courage, it would not bother you to deal with life-or-death financial matters such as inheritances.

## **Chapter 11: The Ascendant**

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

*Ascendant in Sagittarius:*

Although you are way above being attached to money, you have excellent fund-raising ability for your religious or philosophical causes. You may receive money in large quantities by lecturing, travel, exporting, or publishing. You will be generous with this money, because of your faith that its source is divine and infinite. You are a master of prosperity consciousness and of the knowledge that faith and positive thinking are the key to attracting wealth. You seek to share this insight with others.

## Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

### *Part of Fortune in Pisces:*

Your prosperity comes from your subconscious attunement with the higher power and with the subtle vibrations of the cosmos. You rejoice in the totality of creation and in your own creative ability to transcend everyday, physical reality and become one with it. You are like a fish moving with the flow of waters where there is abundant food. Your compassion for others is fulfilled by the fact that you can bring your fluid, cosmic awareness to others through your fertile imagination and see their lives enriched by their own awakening to the subtler realms.

### *Part of Fortune in 2nd house:*

This is a very fortunate position for acquiring large amounts of money, provided that you are clear about what your inner values are. If you need money to achieve a goal which is in harmony with your values, you will easily acquire the money, because your thoughts will be in harmony with receiving it. However, if you do not need money, you may still be handling large amounts of money, but the expenses will equal the profits. Set inner, spiritual, meaningful goals, so that your ability to earn large amounts can be used to make the world a genuinely better place; that is the purpose for which your God-given fortune was intended.
