When two planets are separated by a particular angle, astrologers believe that the influences of the two planets combine to create a strong effect on a person. In ancient astrology and much modern astrology five angles are considered very important: 0, 60, 90, 120, and 180 degrees. These important angles are known as "aspects". In modern times, many astrologers also interpret aspects of 30, 45, 135, and 150 degrees. Some astrologers also use a variety of other angles, such as 72, 144, 40, 80, and many other angles. In the late 20th century a branch of astrology known as "harmonic astrology" developed and practitioners of harmonic astrology believe that there are many hundreds of different aspects, so harmonic astrology has greatly increased the complexity of astrological interpretation. Not all astrologers are convinced that these additional aspects are important. Harmonic astrologers also group together various aspects which they believe to have a similar influence. For example, the fractions of 1/9 (40 degrees), 2/9 (80 degrees), and 4/9 (160 degrees) of a circle are known as "9th harmonic aspects". Given below are interpretations of the following 6 aspects: (1) the semisextile aspect, which is 30 degrees, (2) 24th harmonic aspects, (3) 16th and 32nd harmonic aspects, (4) quintiles and biquintiles, also known as 5th harmonic aspects, (5) the septile, biseptile, and triseptile aspects, also known as 7th harmonic aspects, and (6) the novile, binovile, and quadnovile aspects, also known as 9th harmonic aspects. These additional aspects are known as minor aspects or harmonic aspects. There are many other aspects used in harmonic astrology, but these aspects are among the most important and powerful, and hence this report describes some of the most important Harmonic Highlights in your astrology chart.

I recommend that you read this report after reading an interpretation based primarily on the most commonly used aspects. I think you will be impressed by the ways in which the aspects interpreted in this report describe major issues in your life and in your personality that are not described as clearly by the more commonly used aspects. Hopefully this analysis of harmonic aspects will be useful and helpful to you. If you are an astrologer and you currently do not use harmonic aspects, reading several Harmonic Highlights Reports of friends and family may make you a believer in harmonic aspects. Adding these additional aspects to your interpretation does add greater complexity and detail to your analysis, and keeping a clear, integrated view of the astrology chart becomes more difficult, but astrology is likely to grow in sophistication as it evolves and develops in the 21st century.

Aspects noted as "very strong" in the report have an orb of less than 1/3 the allowable orb and appear at the beginning of the report. "Strong" aspects have an orb of less than 2/3 the allowable orb, and aspects that have an orb that is 2/3 or greater of the allowable orb are printed at the end of the report.

If there are any midpoints conjunct or opposition midpoints within a 15 minute orb, these are also interpreted. These four-planet patterns are also known as isotraps or planetary pictures.

Finally, planets conjunct or opposition the midpoint of two other planets are interpreted. These midpoint structures are also known as direct midpoint structures because the angular distance from the planet at the midpoint to each of the other two planets is the same. Direct midpoint structures with an orb of less than 15 minutes are analyzed first followed by those with a 30 minute orb, then a 1 degree orb, and finally up to a 1 1/2 degree orb. Therefore the midpoint structures with smaller orbs are interpreted first followed by midpoint structures with larger orbs.

For the benefit of astrologers, given below are the orbs used for each aspect. Note that according to harmonic theory, orbs are defined so that all harmonics occur equally often by chance, and hence the orbs are not rounded to the nearest degree.

Venus 24th harmonic (5/24) Saturn, very strong (Orb: 0 Deg 12 Min):

You are a trustworthy friend and a mature, responsible, and sincere person. You look beneath the surface of things and you are more attracted to a person who is respectful and considerate than to a person who is physically attractive but is immature or irresponsible.

You have a natural ability to understand and appreciate different artistic styles. You are an excellent strategist and you are very good at developing and implementing long-range plans. You have the will power and foresight to practice, be disciplined, study or persist to achieve great goals. You are an architect, so to speak, who designs and builds a magnificent edifice over time. Others may try to sway you or distract you but your quiet, persistent efforts are likely to succeed in the long run.

Uranus 7th harmonic (biseptile) Pluto, very strong (Orb: 0 Deg 20 Min):

Dance, music, martial arts, acting, and athletic training suit you well because you have a powerful, dynamic side that likes to express itself in a controlled and disciplined, yet spirited and vibrant manner.

Mercury 9th harmonic (binovile) Jupiter, very strong (Orb: 0 Deg 35 Min):

You are very broad-minded, love almost all cultures and ethnicities, and you find it easy to incorporate almost any philosophical or religious system into your own life. Your approach is to unify rather than categorize and separate. You may find it difficult to understand how others can tenaciously cling to one particular viewpoint, argue its virtues over another, and emphasize differences rather than similarities. Your holistic perspective makes you a good negotiator or peace-maker.

Sun semisextile Saturn, very strong (Orb: 0 Deg 13 Min):

When you meet challengers and obstacles, you have the resourcefulness and discipline to bear down and focus on these challenges. Most likely you are not an ascetic, but you are willing to let go of comforts or habits when needed.

Mercury 7th harmonic (septile) Uranus, strong (Orb: 0 Deg 46 Min)

Your mind can concentrate and focus in areas that others are inclined to avoid. You have a tendency to tackle a difficult problem or subject rather than an easy one. You are capable of prolonged, abstract thinking, and you can enjoy the stress and challenge of unraveling a difficult but exciting subject. Your thinking process is

unusual and sometimes you may fail to grasp simple ideas and yet have great facility and aptitude for other subjects that most people find abstruse and difficult. Over time you can develop exceptional expertise in an academic subject.

Mercury 7th harmonic (triseptile) Pluto, strong (Orb: 1 Deg 06 Min):

You are a good researcher. You have the persistence, tenacity, and drive to dig below the surface and find out what the underlying causes or influences on something are. You may pursue an area of investigation that very few people pursue, and you are likely to incorporate historical or symbolic elements into your theories and research. You may also find mystery novels very entertaining.

Venus 7th harmonic (biseptile) Mars, strong (Orb: 1 Deg 31 Min):

You are responsible, loyal, and dedicated in love relationships. You have the patience to work through problems with relationships and projects that are important to you. Venus 7th harmonic (septile) Jupiter, strong (Orb: 0 Deg 48 Min)

You are a bit of an efficiency expert, so to speak. You don't like waste and you dislike having resources or assets that are not being fully utilized. Extravagance is distasteful to you, but you will not hesitate to expend all of your assets and resources on a project that you consider worthwhile. Your careful approach to managing your assets and resources is likely to bring you financial success, although you are not likely to be as self-indulgent with your material success as others would be. Also, you tend to bond with other people in a subtle, inner way rather than in more formal obvious ways, and you may be somewhat aloof, but steady and trustworthy in your relationships.

Mercury 9th harmonic (quadnovile) Neptune, strong (Orb: 0 Deg 52 Min):

You communicate in a caring and compassionate manner. You sympathize with the underdogs and downtrodden and you strive to make all people feel accepted and appreciated. You appreciate many ethnic styles and tend to be multi-cultural.

Venus 16th harmonic (1/16) Uranus (Orb: 0 Deg 54 Min):

Periodically you need to express yourself creatively, perhaps spontaneously and even with some improvisation. Humor, adventure, and an element of surprise inspire you and make you feel really alive. Romantic outings can be great fun for you. You are attracted to originality and creativity, and you can feel stifled and repressed by the same scenery and same environment every day. Most likely you are not rebellious or conspicuously unusual, but your tastes are very progressive.

Saturn 16th harmonic (7/16) Pluto (Orb: 0 Deg 43 Min):

You are sometimes obsessed with what you consider ethical and correct, and at these times you do not tolerate superficiality, waste, or laziness in yourself or others.

Moon 24th harmonic (1/24) Uranus (Orb: 0 Deg 38 Min):

You become impatient, bored, and a bit rebellious if your daily routine is too repetitive or restrictive. You want to break the monotony with some childish antics or a more free-spirited approach. Most likely you prefer

casual dress and you prefer an environment where people are encouraged to be creative, comfortable, and innovative rather than restricted by too many rules and regulations.

Sun 5th harmonic (biquintile) Mars (Orb: 2 Deg 46 Min):

You have a knack for developing creative ways to achieve your goals. Rather than meet obstacles head on, you have a talent for developing graceful maneuvers that are more effective. You can excel at a sport or competition that requires finesse and creativity as well as strength and power.

Sun 5th harmonic (quintile) Uranus (Orb: 3 Deg 11 Min):

You can succeed in an area that requires creativity or ingenuity. You appreciate creativity, and technical expertise probably doesn't excite you as much as innovation. There is a light-hearted side to you that enjoys jokes, games, cleverness of all kinds, and freedom from dull repetition.

Mars 5th harmonic (quintile) Neptune (Orb: 3 Deg 00 Min):

Simply producing useful and functional objects and services is not sufficient for you. Putting a creative and imaginative quality into whatever you do is much more suitable to you. Fantasy and fiction appeal to you, and you are fascinated by imaginative ideas.

Uranus 5th harmonic (biquintile) Neptune (Orb: 2 Deg 56 Min):

You appreciate many different kinds of art and music, and you are perceptive and sensitive to subtle and sophisticated creative genius. You appreciate creativity and imagination that has the power to inspire, uplift, or amaze.

Moon 9th harmonic (novile) Jupiter (Orb: 1 Deg 35 Min):

You have a natural ability to reach across social and ethnic boundaries to make everyone feel welcome and accepted. Your first impulse is to include everyone and to make almost anyone feel as if they are part of your family. People do not feel judged by you. You can be very successful in working with others. Your closeness with others may sometimes make loved ones feel that they are not special to you.

Moon 9th harmonic (quadnovile) Neptune (Orb: 1 Deg 19 Min):

World hunger is not an abstract concept to you. Your heart goes out to all people and you can sympathize with people in a wide range of circumstances, even if you have not had the same experiences.

Mercury semisextile Venus (Orb: 1 Deg 12 Min):

Like many people, you appreciate and enjoy beautifully written and beautifully spoken words. An enchanting story captivates you and you are attracted to people whose speech is articulate or colorful.

MIDPOINTS CONJUNCT/OPPOSITION MIDPOINTS (if there are any with up to a 15 minute orb)

Sun/Neptune opposition Mars/Uranus: (Orb: 0 Deg 05 Min):

You need to work in an area that is imaginative or creative. Mundane tasks can become very boring for you, and you tend to do everything with a unique, creative flair. When you feel inspired and you have a feeling of awe or wonder, you can work long hours. Otherwise, you may find it difficult to concentrate on the required tasks. You are driven by your inspirations. You can swing between extremes of activity and inactivity and it is important for you to maintain a balanced and healthy life style in order to maintain optimum health.

DIRECT MIDPOINT STRUCTURES (allowable orb = 1 1/2 degrees)

Jupiter Conjunct Venus/Mars 0 deg 03 min

You are a creative, warm, and friendly person. You are romantic, open, and generous. You are thoughtful and generous, and you enjoy taking time to be with friends or going out to have a good time. You can be very successful in an area that involves art, creativity, friendliness, or entertainment. Your constructive, positive attitude draws good opportunities to you.

Neptune Opposition Moon/Mercury 0 deg 13 min

You have good imagination and intuition. You have a talent for understanding, and perhaps also producing, poetry and fictional literature. You work well with children, and also have a strong inclination to become involved in music and the arts.

Sun Opposition Mars/Neptune 1 deg 16 min

You need to work in an area that captures your imagination. Like a child, you can get very excited about things which to others seem less important or dramatic. You succeed in areas where you can share your sense of magic and wonder. Your dreams may revolve around something as simple as athletic performances or as grand as visions of world peace; whatever your dream, follow it and share it, but take an objective look also at how your dreams and visions fit into the lives of others and the world in general.

Neptune Opposition Sun/Uranus 1 deg 21 min

Your imagination and idealism are unusually strong. It is likely that you believe in various paranormal phenomena that most people are skeptical of. In order for your dreams, visions, and fantasies to develop to their greatest potential, it is best if you avoid drugs, alcohol, and stimulants.

Pluto Opposition Mercury/Saturn 1 deg 25 min

You are very good at detailed work and you can excel as a specialist in your chosen field of work. You have excellent mental concentration and you love to discover how things work. Because you focus so intensely on the object of your study, you sometimes miss general principles and concepts. You will succeed in areas that demand the specialized capabilities that you have to offer.
