This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create wealth.

Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

Sun in Capricorn:

Your best route to gaining financial prosperity is to become an expert in something and work your way to the top. You are practical enough to know that it will not pay to take risks, and that it is better to move ahead gradually but surely. It pays to be honest and to build a good reputation.

You benefit from the fact that there are others who have gone before you who can show you the way. They have established rules and procedures which you can follow. In turn, once you have risen to a position of authority, you will receive financial benefits by being in charge of others.

Your steady work in your younger years will pay off in your retirement. You will have earned financial security, and you will be able to live in comfort.

Sun in 9th house:

Your opportunities for prosperity are many because you have an ability to get positive ideas out to people, so as to increase their happiness and good fortune. You could do this by being a publisher, university professor or minister.

You teach others that, in order to be happy, they need to spread joy to others. The more people you reach with this message, the more you will be multiplying the happiness in the world, and the more you will receive in return.

Chapter 2: The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought

or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Pisces:

Your approach to wealth involves passive receptivity rather than self-assertion. You are very psychic, and know exactly what to say to someone to make them want to give you money. You may flatter them or entertain them; perhaps you will appeal to their sympathy. In turn, you are very compassionate at helping those in need. You would rather lend your creative talent to a charitable cause than work in a structured job, but you receive enough money just the same, because of the good karma you create.

Moon in 11th house:

You feel most comfortable being in a group, and it is through your many friends and acquaintances that you can discover ways to prosper. Your mother likely had groups of people meet you in your home when you were young, and you are likely to follow suit with your own yoga classes, astrology group, or group working on a social cause. The people you meet will openly share money-making ideas for the good of all, on a plane high above competition or private ownership.

Moon Square Mars:

The key to handling this aspect to increase your prosperity is to have clear, higher prosperity goals. Then your energy will be efficiently directed towards the achievement of those goals. Until then, you are likely to waste energy reacting to small things in your immediate environment. Once your goals are set, your emotions will be happier and others will respond by contributing to your prosperity.

Moon Trine Pluto:

This is a very favorable aspect for creating wealth through willpower and through the conscious use of prosperity affirmations. Your emotions are intense but on a higher plane of being directed by your thoughts. Your faith is very strong, in overcoming obstacles both in business and in your home. In fact, the challenges you face just make you stronger and more determined to overcome them.

Chapter 3: Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us

insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Aquarius:

You are a brilliant, innovative thinker and you could find financial prosperity in one of your unique inventions. You have a natural understanding of how wealth is first created in the mind and then carried out in everyday affairs. One good idea can be worth a million dollars! You could be a computer genius, and this may be your source of prosperity.

Mercury in 10th house:

You think in terms of how you can get the kind of education which will help you reach the top. You may study business or political science. You set goals and then you do the necessary work to achieve them. You aim to make plenty of money and enjoy the status of being the head of the organization. You may work your way up to a high position in the military. You know how to run an organization because you have personally worked at every step on the way up, and this makes you a successful leader.

Mercury Square Asc.:

You have good ability for assertive communication and quick action. This would make you a good advocate for others. As a messenger or delivery person, you would excel. Your quick thoughts and actions would put you at the top. Depending on other factors in your chart, you could also succeed as an athlete in a fast sport. In personal relationships, you would either have to learn diplomacy or associate with other assertive people. In investments you are able to tolerate risk. You would be happier with short-term than long-term investments.

Chapter 4: Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Pisces:

The place to invest which you would enjoy most would be in something connected with creativity, such as art, music and dance. You would rather see your money go towards support for others than towards anything which is just about profit. Still, you are favored to make a good profit from your creative output. You could also make good money from anything having to do with fish, boats, or the sea. You have an excellent psychic, intuitive sense of when best to invest.

Venus in 11th house:

You are able to do well financially through innovative and unusual methods of investment, in the company of other free-thinking individuals. You appreciate the way in which individuals pooling their money together can result in better profits, such as money market funds and mutual funds. You are likely to invest so as to promote a social cause you believe in, while at the same time making a profit. You profit best from your ideas, rather than from physical labor and detail.

Venus Sextile Asc.:

This aspect gives you a special talent for creating harmonious relationships. In fact, you might even work as a marriage counselor or diplomat. Your harmonious marriage will be an asset towards your prosperity. You have many opportunities to attract money. You could prosper from your artistic or musical ability. You would succeed well in public relations, especially if you are working with a partner.

Venus Trine Part of Fortune:

This is a very fortunate position for joy and prosperity. You are a born positive thinker, and your faith leads you to find great fulfillment in being kind and charitable to others. Your generosity has attracted financial wealth in return. You are spiritually guided as to how to use it, and thus your wealth keeps regenerating. Because you are well off, you are free to pursue your artistic and/or musical interests, which you very much enjoy.

Chapter 5: Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Gemini:

You are likely to achieve prosperity through your sharp mind rather than through physical labor. You might work at teaching, debating, translating and communicating. If your work does involve physical activity, it will be something where you can be quick and agile, such as a cashier, shiatsu therapist, or delivery person. In investments, you take the initiative to calculate the most profitable alternatives, and you contact others and

discuss your many options.

Mars in 2nd house:

This is an excellent placement for successfully running your own business. You like to be your own boss, and you like to make money. You have the capacity to work for long hours, as well as physical strength and stamina. You set ambitious goals, of owning a nice house and possessions and making your business grow. Then you proceed to work hard to achieve these goals. You may have the tendency to spend your money quickly rather than save it, so save a percentage of your earnings first.

Mars Opposition Saturn:

Although you may at first feel as if your prosperity goals are just going to be thwarted, you will succeed in the long run. It is a matter of cultivating a positive outlook and offsetting the strictness and limitations of your past. Remember that whatever happened in the past, this is a new moment and you can be prosperous now. Be kind and patient with others, so that you will not pass on negativity to them and so that you will create only good karma for yourself in the future.

Chapter 6: Jupiter

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

Jupiter in Taurus:

This is a very fortunate position for prosperity in business and financial investments. You are responsible about using money for the betterment of the world. You are very honest in your dealings. You see that wealth is created through a combination of positive thinking and hard work. You are likely to acquire a very large house and to be generous about inviting others over and cooking for them. Your yard will have a large, beautiful garden.

Jupiter in 12th house:

Because you give generously to help those in need, you create good karma, and then you are amply provided for in return. You could profit well from any investment related to fishing, boating or preserving the marine environment. Your idea of prosperity is to be out in nature, in a quiet place where you can observe nature's beauties, paint, or meditate. You could become prosperous by running a retreat or eco-tourism business.

Jupiter Trine Neptune:

Your spiritual awareness is high above the level of attachment to money. You would find more fulfillment in running a charity to help the poor or living in a religious retreat. Because of the very good karma which you create by generously helping those in need and uplifting them spiritually, you will be well provided for by others in return. Your vivid creative imagination could, alternatively, provide you with income from art, music or publishing fiction stories.

Chapter 7: Saturn

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

Saturn in Sagittarius:

If you really work as doing prosperity affirmations and goal-setting exercises over a long period of time, you will meet with untold success! In fact, you have the potential to become a millionaire. It is all a matter of clearing your subconscious mind of the effects of any past over-indulgences, including those of your parents and grandparents. Follow good religious values and work hard to get a good education.

Saturn in 8th house:

You might have a career in the financial field, advising others how to manage their taxes, debts, investments or wills. You innately understand the strategies as to how to save money and handle it responsibly. These skills could help you to gain money from your own investments. You would do very careful research into the pros and cons before actually investing, and thereby prevent any risks.

Chapter 8: Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Aries:

You were born into a generation of people who had excellent ability to break free from the poverty of the past and start anew. In fact, their courage and daring went too far, to embrace the idea that war would get the economy going. This obviously had some adverse consequences, because people who are dead cannot enjoy financial freedom. Aries can be too impulsive, rather than remembering to keep the higher values in mind. Remember to think before you act, and you will achieve the results you want.

Uranus in 12th house:

Although your awareness is high above the material plane of money, you can still manifest material wealth if you choose, especially if you want it to help those in need. In fact, you may earn your living caring for the poor or the sick. Your good karma, of giving them hope and compassion, would be returned to you if you are ever in need. You are also extremely inventive at living on very little money yourself, if you have to or if you choose to, while you accomplish your higher ideals.

Uranus Square Part of Fortune:

You are dedicated to finding ways of bringing your ingenious insights about prosperity down to the level where others can benefit from them and the earth can be elevated to a higher, spiritual plane. You are very enthusiastic about the possibilities for this. You envision the possibility of miracles, and of groups meditating on individual and world prosperity. You are on the forefront of new thought and new solutions.

Chapter 9: Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights

from higher, spiritual beings which can assist others.

Neptune in Virgo:

You were born at a time when there may have been a lack of jobs and when poverty would have had an adverse effect on health. Part of the block to prosperity would have been an illusion that there was something even virtuous about financial lack, and this would have hindered job creation. In addition, workers were expected to be self-sacrificing for their employers, rather than have individual rights.

Neptune in 5th house:

Your talent for acting and theatre could bring you money and recognition. You are very good at being able to portray different roles convincingly. Your talent would also likely extend to performing music. Although you might be able to tune in psychically at times to what would be a good investment in the stock market, you would be taking a big risk here of deluding yourself into thinking you are luckier than you are. So, never invest more than you can afford to lose.

Chapter 10: Pluto

The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

Pluto in Cancer:

You were born in an age when the economy revolved around the family. The father went out to work and the mother stayed at home with the children. Motherhood was highly valued. Because of the number of new babies born, food production needed to be increased to feed the growing population. The larger "family" of culture and country was perceived as being in need of being defended, and part of the economy revolved around these efforts.

Pluto in 3rd house:

Your source of wealth may be your ability to improve mass communications or transportation. You could invest in, or work for, a large delivery company. You may transform neighborhoods by getting the people to get together to communicate; for example, you may build condominiums. You have a good mind and could teach many students about such subjects as languages, science, or mathematics. You might utilize computers to do this.

Pluto Sextile Asc.:

You are capable of very positive, mutually transformative relationships. Your personal relationships will somehow have a wider effect on the world around you, such as successfully investing money with others and then using the profits to uplift other people. Your work should involve something requiring deeper insight and challenge, such as helping others figure out their life plans and how to invest their money, or figuring out how to increase human longevity, or recycling or salvaging. Because you understand strategies, you will have many opportunities to increase your own investment income.

Chapter 11: The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Taurus:

You have a wonderful patience and stability, which favors profit from long-term investments. You do not look for excitement in your investments; you just patiently wait through the up-turns and down-turns of the economy and stay on course to achieve your long-term goals. You buy quality items which will last, such as a solid house on firm ground. You know much better than to risk using your house to borrow money for items of temporary value. Instead, you make thorough plans for lasting financial security.

Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your

awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Cancer:

Your joy comes from nurturing life in all its forms. Your own birth was a great joy, a divine miracle from which you derive inspiration. You are now celebrating the miracle of motherhood every day and facilitating the creation and unfolding of life and its divine potential. What can be more prosperous than to witness the growth all around you? What can be more fulfilling than to be a part of it, helping it along and responding to its needs with care and protectiveness? The fertility of the earth and the infinity of the heavens represent infinite prosperity!

Part of Fortune in 3rd house:

Prosperity for you means having a wealth of ideas and knowledge which you can share and discuss with others. Your fulfillment will be in applying the things you learn in your own life and passing on what you know to others. Your joy will come from doing this through writing and publishing, communications and traveling, and studying and teaching. The more you live and share your teachings, the more prosperous you will be.
