This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create wealth.

Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

Sun in Leo:

Leo is the sign which is ruled by the Sun, so your ability to radiate life and leadership is supreme. You are like the kings and queens who are so confident in their position as ruler that no one would question their right to own castles, jewels, and all that money can buy. In modern times, you are like the famous actors and actresses whose performances others would not think of missing and would certainly not mind paying top dollar for.

As you acquire wealth - and it is a given that you will - always remember that this wealth came from your generosity, and that your generosity, in turn, was a gift from God. In that way, you will transcend your own ego and always continue to be someone whom others will admire and support.

Sun in 8th house:

You have opportunities to acquire prosperity by handling other people's money for them. That is because of your courage in handling life-or-death subjects. Most people have difficulty thinking about the worst things which could happen, or which have happened, and you could help them with their insurance policy or their relative's estate.

You can also make money in a salvaging or recycling business.

Sun Trine Saturn:

You successfully build for your future good fortune by both having a positive vision of prosperity and carefully organizing your financial affairs. You appreciate the value of profitable investments and you do careful research to find out where the best returns will be. You enjoy life in the present and you also save for the future; this is a good and wise balance.

Chapter 2: The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to

new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Aries:

You would feel more comfortable being an entrepreneur than most people, because you grew up in an environment which prepared you for this. You were expected to be independent and compete for yourself, and now you are very good at it. You might have your own store, or you might work out of your own home. Your effectiveness in making money will increase if you remain physically fit and active. Because of your positive attitude you are not deterred by setbacks and you move right ahead.

Moon in 5th house:

You would be tuned in to the daily fluctuations of the stock market. However, rather than buy or sell based on emotions and impulse, look also at long-term performances and trends. You seek to create an atmosphere of lavishness in your home environment, and you could show off the fine art and architecture to those whom you entertain. You like to be among well-known people, and they may well show you the way to financial success. You would enjoy gambling and have good luck, but never gamble more than you can afford to lose.

Moon Trine Uranus:

You are very psychic and intuitive and might make your living as an astrologer. You are likely to be lucky in lotteries and games of chance, because you receive flashes of inspiration as to what numbers to enter and when. This aspect favors a home business using a computer. You might also profit from original ideas or inventions.

Moon Sextile Neptune:

You have a talent for bringing forth positive impressions from your subconscious mind and using them for practical guidance. Your inner intuition guides you to good financial decisions. You can enhance your prosperity even more by consciously introducing prosperity affirmation into your subconscious mind. In that way, the impressions which come forth from your subconscious mind will be even more positive and will give you even better financial guidance.

Chapter 3: Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming

prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Virgo:

You are likely to become prosperous because of your willingness to work and because you take pride in the accuracy of your work. You would do well in any job requiring precision such as doctor, nurse, or secretary. You have a good mind for logic and memory and you use it to come up with practical solutions. For example, you focus on your bookkeeping in such a way as to avoid wasting any money and you figure out what to invest in to provide for your ongoing sustenance.

Mercury in 9th house:

You are likely to find good fortune in your many travels. You may travel to give lectures for a church or university or you may be a travel writer for a publication. You are very interested in learning about other cultures, and you may then come back and teach others about them. Your thinking is very positive and your belief in abundance cannot help but create it.

Mercury Square Pluto:

Your best asset for prosperity is your ability to focus on mind-body unity. You would make successful athlete who would have the willpower and mental focus to score the winning goal or put on a winning performance. It is best that your means of making money involve some form of physical activity, so that your energy will not build up and make you argumentative.

Mercury Square Asc.:

You have good ability for assertive communication and quick action. This would make you a good advocate for others. As a messenger or delivery person, you would excel. Your quick thoughts and actions would put you at the top. Depending on other factors in your chart, you could also succeed as an athlete in a fast sport. In personal relationships, you would either have to learn diplomacy or associate with other assertive people. In investments you are able to tolerate risk. You would be happier with short-term than long-term investments.

Chapter 4: Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create

prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Cancer:

You might like to invest in antiques. Not only would you enjoy being surrounded by them; you would make a profit when you sell them. You might also invest in coin collections or silver. Your ability to be a good cook could bring you additional income. In fact, you could do well in any business designed to make people feel at home, such as a restaurant or bed-and-breakfast house for travelers.

Venus in 8th house:

You are likely to receive money from an inheritance, legal contest, or wealthy partner. However, make sure that you do not marry for money or get into any legal contest with the thought of financial gain, because this will bring bad karma into your life rather than happiness. Direct your emotional need for intense money strategies towards strategic, wholesome investments, rather than towards people. Invest in things which will regenerate the environment, such as salvaging, renewable energy sources, or recycling. Your investments here would be very profitable and gratifying.

Venus Square Saturn:

You need to consciously cultivate a positive outlook about money, rather than just associate it with hard work, debt, or lack of enough money. Your past experiences may have made you very serious, but remember that this is a new moment and have positive faith. People will be more likely to hire you or do business with you if you are friendly and non-controlling. Be open to receiving money, so that you are not blocking it from coming to you. Re-define yourself as being worthy of it.

Chapter 5: Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Leo:

You like to take risks in the area of financial speculation, and you are likely to have good luck. That is because your positive attitude generates positive results. Although good fortune comes easily to you, it is important that you remain above being ego-attached to it. Your strength and leadership ability are likely to put you in a job where you will be financially rewarded for the inspiration you give to others. You might do well investing in gold, or perhaps selling it.

Mars in 8th house:

Your means of making money are likely to involve the handling of other people's money. You may work in the field of investments, taxes, insurance, or inheritances. You are able to deal with these matters objectively, whereas many others are not. You tend to be very assertive in money matters, and you could deal with competitive, corporate finances. Make sure that you treat others fairly, so that you will not end up getting involved in costly lawsuits. In investments, you are likely to be involved in complex strategies which few others would understand. Create good karma for yourself by making sure that these strategies are for the betterment of mankind.

Mars Conjunct Part of Fortune:

You very much enjoy working hard and competing to make money, and you would be happy having a business of your own. You are likely to succeed in this goal because you are so enterprising and enthusiastic. You like to expand your endeavors to larger markets and multiply your profits. You may do this in other countries, and you would be glad that you are able to travel to new places. You are generous with your earnings, especially in helping others get started in business, and you find fulfillment in seeing them succeed.

Chapter 6: Jupiter

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

Jupiter in Virgo:

Your careful investments can bring you prosperity. You look for sound, practical, reliable investments which will also yield a high return. You work hard and could be successful in business as long as you learn to delegate responsibility rather than work too hard yourself. The business is likely to be related to health care, cleaning, or employment advice. You are very honest and reliable in any work you do and your good attitude will enhance your profits.

Jupiter in 9th house:

This is a very fortunate position for large financial gains and prosperous life. You have such wonderful goodwill and generosity towards others that you are bound to profit in return. Your positive beliefs are likely to ensure that you will not become attached to your money, and you will give large amounts in donations to charities, religious causes, and higher education projects. You could travel to foreign countries as a religious leader and continue your good work there.

Chapter 7: Saturn

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

Saturn in Aries:

You are aware that, in order to achieve your goals, you will have to break free from the past and make a brand, new start. Fortunately, you are very resourceful at doing this, even if you keep trying different things to get going. You know what you want to achieve, and your willingness to see each moment as a new moment will get you there.

Saturn in 4th house:

Because you likely grew up in a home with limited financial resources, you are motivated to work hard to achieve your own security. You have the potential to make money in real estate, and you would provide good service for your clients. You could also find a career in working in a small, specialized shop such as a flower shop or environmental store. Any profession relating to the land such as organic farming would also be suited to your caring and realistic talents.

Saturn Trine Part of Fortune:

Your honesty, hard work, optimism and benevolence have put you in a position of lasting prosperity. You set very high goals and standards for yourself, and your karma, in return, is to be successful and happy. You have a great deal of faith and breadth of vision, so that the work you do is well guided in its direction. You set a wonderful, inspiring example for others, and you find great joy in seeing them follow in your footsteps and happily succeed.

Chapter 8: Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Sagittarius:

You were born into a generation of people who had new ideas about religious beliefs and their relevance for creating prosperity. The term "prosperity consciousness" came into being. It was an application of the raja yoga idea of using the mind to create what you want, by first envisioning it and then putting out to the Universe the belief that "this or something better will come into my life". It was based on a higher understanding of how positive thinking works.

Uranus in 1st house:

You are very inventive and able to promote new ideas. You would be quick at getting your inventions patented before anyone else thinks of them, and you may gain considerable wealth in this way. If you are interested in astronomy, you could be the first to discover a new planet or star. You have innovative ideas about a group approach or network for sales, and you could profit from your originality and initiative.

Uranus Opposition Neptune:

You were born during a rare, few years of political and social unrest which grew out of the demand for caring about the poor, holding back scientific advancement. It became evident that the civilization as a whole could not advance until the problem of poverty was addressed. It was a time of wind and tumultuous seas. There was a great deal of psychic and spiritual awareness, but it was offset by the confusion of the challenging circumstances.

Chapter 9: Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

Neptune in Gemini:

You were born at a time when religious people set up schools for children, and part of the instruction in them was about the spiritual value beyond money. Communication was just as likely to be in the form of poetry or song as prose. Fishing industries were being set up, with trade being among relatives and neighbors. The emphasis was on the development of the conscious and unconscious mind, rather than the application of that to money.

Neptune in 7th house:

You have ability as a compassionate therapist or counselor and could make your living at this. You have sympathetic understanding of those in need and an ability to develop a rapport with them. You might also develop your artistic talent, to make items which are comforting and beautiful. You could be successful as a psychic, to whom individuals would come for help with their problems.

Chapter 10: Pluto

The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

Pluto in Gemini:

You were born in an age of great advances in transportation, communication and education. Roads and railways were built and airplanes came into being. Mail service from one location to another became possible. Telephones were invented. Schools were built and young people attended them, rather than just work on the farm. Encyclopedias became popular. New types of jobs were created which enabled more people to move into cities and towns.

Pluto in 7th house:

You have transformative ability in the field of human relations, especially marriage counseling, where you could successfully get couples to work out their differences. In fact, you would excel in any kind of mediation or peace-keeping role. You could become a lawyer or judge, helping many people with their contractual obligations and concerns. You might choose to work in the public relations field.

Pluto Opposition Asc.:

Your personal relationships are very intense and have the positive potential for transforming both your consciousness and your finances. Although others may feel insecure with you, they also sense that change for the better is good, even though it necessitates leaving the security of the past behind. Your work would best be in a field where your intensity will be a welcome advantage to those seeking improvement, such as intense therapy, demolition and rebuilding, surgery, or osteopathy. Prepare well for your work, so that your intense effect on others will be beneficial and karmically rewarding.

Chapter 11: The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Sagittarius:

Although you are way above being attached to money, you have excellent fund-raising ability for your religious or philosophical causes. You may receive money in large quantities by lecturing, travel, exporting, or publishing. You will be generous with this money, because of your faith that its source is divine and infinite. You are a master of prosperity consciousness and of the knowledge that faith and positive thinking are the key to attracting wealth. You seek to share this insight with others.

Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart

by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Leo:

Your prosperity comes from your ability to shine like the sun, the source of energy for all life and accomplishment. Your aura radiates powerful energy and happiness to all of those around you. They admire your leadership and your sense of direction in achieving the greatest of goals. You know that you are one with the Light, and you lead others in accordance with divine will. You are a source of Light, and your prosperity comes from reaching the inner light in others and igniting their potential to shine and to be as gods.

Part of Fortune in 8th house:

Your prosperity and joy in life come mostly from the transformational experiences which others give you and which you have learned to be open and receive. They may come in the form of intense, personal encounters or they may involve the receipt of other people's money, such as through a will or insurance policy. Your happiness comes from knowing that you are experiencing life at a deeper, more meaningful level and that you are being transformed and regenerated.
