When two planets are separated by a particular angle, astrologers believe that the influences of the two planets combine to create a strong effect on a person. In ancient astrology and much modern astrology five angles are considered very important: 0, 60, 90, 120, and 180 degrees. These important angles are known as "aspects". In modern times, many astrologers also interpret aspects of 30, 45, 135, and 150 degrees. Some astrologers also use a variety of other angles, such as 72, 144, 40, 80, and many other angles. In the late 20th century a branch of astrology known as "harmonic astrology" developed and practitioners of harmonic astrology believe that there are many hundreds of different aspects, so harmonic astrology has greatly increased the complexity of astrological interpretation. Not all astrologers are convinced that these additional aspects are important. Harmonic astrologers also group together various aspects which they believe to have a similar influence. For example, the fractions of $1/9$ (40 degrees), $2/9$ (80 degrees), and $4/9$ (160 degrees) of a circle are known as "9th harmonic aspects". Given below are interpretations of the following 6 aspects: (1) the semisextile aspect, which is 30 degrees, (2) 24th harmonic aspects, (3) 16th and 32nd harmonic aspects, (4) quintiles and biquintiles, also known as 5th harmonic aspects, (5) the septile, bisseptile, and trisseptile aspects, also known as 7th harmonic aspects, and (6) the novile, binovile, and quadnovile aspects, also known as 9th harmonic aspects. These additional aspects are known as minor aspects or harmonic aspects. There are many other aspects used in harmonic astrology, but these aspects are among the most important and powerful, and hence this report describes some of the most important Harmonic Highlights in your astrology chart.

I recommend that you read this report after reading an interpretation based primarily on the most commonly used aspects. I think you will be impressed by the ways in which the aspects interpreted in this report describe major issues in your life and in your personality that are not described as clearly by the more commonly used aspects. Hopefully this analysis of harmonic aspects will be useful and helpful to you. If you are an astrologer and you currently do not use harmonic aspects, reading several Harmonic Highlights Reports of friends and family may make you a believer in harmonic aspects. Adding these additional aspects to your interpretation does add greater complexity and detail to your analysis, and keeping a clear, integrated view of the astrology chart becomes more difficult, but astrology is likely to grow in sophistication as it evolves and develops in the 21st century.

Aspects noted as "very strong" in the report have an orb of less than $1/3$ the allowable orb and appear at the beginning of the report. "Strong" aspects have an orb of less than $2/3$ the allowable orb, and aspects that have an orb that is $2/3$ or greater of the allowable orb are printed at the end of the report.

If there are any midpoints conjunct or opposition midpoints within a 15 minute orb, these are also interpreted. These four-planet patterns are also known as isotraps or planetary pictures.

Finally, planets conjunct or opposition the midpoint of two other planets are interpreted. These midpoint structures are also known as direct midpoint structures because the angular distance from the planet at the midpoint to each of the other two planets is the same. Direct midpoint structures with an orb of less than 15 minutes are analyzed first followed by those with a 30 minute orb, then a 1 degree orb, and finally up to a $1 \frac{1}{2}$

degree orb. Therefore the midpoint structures with smaller orbs are interpreted first followed by midpoint structures with larger orbs.

For the benefit of astrologers, given below are the orbs used for each aspect. Note that according to harmonic theory, orbs are defined so that all harmonics occur equally often by chance, and hence the orbs are not rounded to the nearest degree.

Aspects and orbs:

16th harmonic	: 1 Deg 00 Min
32nd harmonic	: 0 Deg 30 Min
24th harmonic	: 0 Deg 40 Min
5th harmonic	: 3 Deg 12 Min
7th harmonic	: 2 Deg 17 Min
9th harmonic	: 1 Deg 47 Min
semisextile	: 1 Deg 20 Min

Sun 16th harmonic (7/16) Uranus, very strong (Orb: 0 Deg 01 Min):

You are a very strong individualist. You may not be flamboyant about it and others may not realize the extent to which you march to the beat of your own drummer, but down deep you are a free spirit who likes to make his/her own rules and is skeptical of what the majority believes.

Moon 16th harmonic (5/16) Jupiter, very strong (Orb: 0 Deg 06 Min):

You have a knack for making others feel welcome and accepted. It is easy for you to accept differences in people and to support each person in their unique and individual interests and beliefs. You enjoy being a part of a large family or circle of friends.

Jupiter 7th harmonic (septile) Neptune, very strong (Orb: 0 Deg 30 Min)

You have a deep and serious approach to philosophical and religious issues, and you are skeptical of simple answers to large and complex questions.

Venus 16th harmonic (7/16) Pluto, strong (Orb: 0 Deg 36 Min):

You are passionate, almost obsessive, in love relationships. You do not always follow logic and reason when it comes to affairs of the heart. When you feel passionate about someone or something, you tend to be compulsive and obsessive. It is easy for you to break social taboos and your marriage and life style may be unusual.

Saturn 16th harmonic (3/16) Neptune, strong (Orb: 0 Deg 39 Min):

You cut beneath the glamour and superficiality that you see around you, and your approach to religion and spirituality is serious and critical. You may be so serious in your pursuit of your ideals and have so much distaste for superficiality and glamour that you miss the magic and wonder of holidays, fantasies, and many imaginative art works and music.

Sun 24th harmonic (1/24) Mercury, strong (Orb: 0 Deg 15 Min):

You are a good student. You are delighted by clear and articulate communications, and you continue to learn and improve your own communication skills throughout your entire life.

Sun 5th harmonic (quintile) Jupiter, strong (Orb: 1 Deg 21 Min):

You enjoy expressing yourself freely and having a good time. You like some playfulness and creativity, and you love the company of friends. You need to have some time away from the usual routine to kick back and enjoy yourself. A life style that allows you to socialize, play, and freely express yourself suits you well. However, when it's time to focus, be quiet, and focus to get important work done or to master something, put this part of your personality to the side and bring it out at a more appropriate time.

Moon 5th harmonic (quintile) Venus, strong (Orb: 1 Deg 06 Min):

You enjoy, and seek out, relationships that bring interesting experiences into your life. Laughter, games, and learning together are likely to be more important to you than physical attraction. You are likely to take a creative approach to your home environment and your tastes are a bit unconventional or more sensitively developed than other people in your family. If you have not developed the qualities described above, then this is a side of yourself that you may have suppressed or avoided, and consequently liberating your creative, fun-loving side can fill an empty or missing aspect of your life.

Mercury 5th harmonic (quintile) Saturn, strong (Orb: 2 Deg 01 Min):

You have a talent for developing your own style or unique approach to a subject. You synthesize the models, concepts, or techniques of others into a pattern or design that is unique and personally comfortable for you. If you develop expertise or facility in any area, you will experiment and play with different conceptual models until you develop a new mold that suits your personal taste.

Mercury 5th harmonic (biquintile) Uranus, strong (Orb: 1 Deg 44 Min):

You have an unusually creative mind, and you need outlets for your open-minded approach to life. You tend to be successful in an environment where products or services are being developed or ingenuity is required. You adapt well to new ideas and you are able to identify potential in a new idea while others may overlook it because it does not fit into their preconceived notions. You have an ability to enjoy clever ideas, whether they are new gadgets, or technology, a fresh approach in arts or music, or any other area, without being burdened by your personal responsibilities. While others have excuses, like not having enough available time to learn something new, you avail yourself of the opportunity to experience new things.

Mercury 7th harmonic (septile) Mars, strong (Orb: 0 Deg 55 Min)

You prefer studying a subject in depth and in detail. Skimming through a thousand years of history by memorizing some names and dates is, for example, almost completely meaningless for you. You seek meaning and depth of understanding. Often you are more interested in the underlying motives, history, or symbolism of an event rather than just the factual details. You have the capacity to develop interesting ideas and insights through prolonged, specialized study. There is a good chance that your way of thinking and learning as a child was under appreciated by your teachers.

Mercury 9th harmonic (quadnovile) Pluto, strong (Orb: 1 Deg 06 Min):

You have good aptitude for psychology because you strive to uncover the underlying causes behind something. You may also be interested in the factors that build communities, nations, families, and historical or biological processes. You tend towards a holistic and therapeutic approach to a subject.

Uranus 9th harmonic (binovile) Neptune, strong (Orb: 0 Deg 54 Min):

You are tolerant and supportive of different life styles and attitudes. You tend to a broad, universal outlook on life, and have an inherent sense of ultimate goodness or sense of divine purpose that allows you to weather storms and avoid becoming flustered by everyday, typical frustrations. You see past superficialities and tend to view life from a more cosmic or universal perspective. Minor faults in others do not upset you, but if you ever encounter very malevolent or malicious people or circumstances, you can become very deeply affected, disturbed, troubled, worried, or unsure of how to cope with such extreme evil. In general, though, you have an inspiring, uplifting, and healing effect on others.

Venus 9th harmonic (novile) Jupiter (Orb: 1 Deg 42 Min):

You have an innate warmth and kindness that emanates from you and others appreciate. You include everyone in your warm glow, and you are tolerant and accepting. You enjoy breaking social and ethnic barriers, and you appreciate many different kinds of people. You may feel closer and be more involved with your friends and larger community concerns, and perhaps even global concerns, than you are with people in your immediate environment and family.

Sun semisextile Venus (Orb: 1 Deg 03 Min):

Most likely if you move into a new house or apartment, pictures will be on the walls and flowers in vases on the tables very soon. You feel very uncomfortable in environments that lack at least a small degree of charm and beauty.

MIDPOINTS CONJUNCT/OPPOSITION MIDPOINTS (if there are any with up to a 15 minute orb)

Sun/Venus conjunct Moon/Jupiter: (Orb: 0 Deg 08 Min):

A generous, friendly, warm, outgoing disposition. Making others feel welcome and accepted. Tolerant and willing to overlook minor faults in others. Enjoying life and not letting responsibilities, financial constraints, and other limitations stop one from enjoying life. A tendency to spend beyond one's means or indulge, to be overly trusting and optimistic, not being sufficiently cautious and careful.

Moon/Jupiter opposition Uranus/Pluto: (Orb: 0 Deg 11 Min):

You are an expressive person with an irresistible need to be spontaneous, free-spirited, and to be yourself. You feel happiest when you unburden your soul and are open with others. Most likely you have a spontaneous, infectious laugh because you naturally tend to have a cheerful attitude and also a progressive, create approach to life.

Mercury/Neptune conjunct Mars/Jupiter: (Orb: 0 Deg 12 Min):

You are an idealistic thinker and you dislike solutions to problems that are based on a limited perspective and viewpoint. You are a visionary and your broad philosophical perspective and idealism guide your thinking, and you have a strong need to incorporate your visionary perspective in whatever you do. You tend to dabble in a large number of different interests, and travel and exploration of different religions and traditions can greatly enhance your ability to view situations from the broader perspective that is so important to you. Do not allow yourself to be satisfied with a simple philosophical view because this will inhibit your curiosity and your ability to grow to new levels. There is always more to learn and explore and you will benefit by allowing yourself to continue to learn new perspectives and to become more aware of different approaches to art, religion, art, relationships, and other areas of life in different historical periods and different geographic regions. Your best work incorporates many diverse influences.

DIRECT MIDPOINT STRUCTURES (allowable orb = 1 1/2 degrees)

Mars Conjunct Sun/Jupiter 0 deg 04 min

It is likely that you will become successful in your career and in achieving many of your goals. You have an enterprising nature, and you are confident. You set very high goals and standards so it is unlikely that you will achieve everything you set out to do, but it is also likely that you will achieve many of them. One word of caution: sometimes you take on too much or do not plan carefully enough beforehand.

Pluto Opposition Moon/Saturn 0 deg 33 min

Sometimes you feel alienated and distant from others. You seek solitude, although too much distance from others can also bring on feelings of depression and loneliness.
