This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual, you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1: The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to who you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money; they follow the leadership of your divine inner light. You are one with the Infinite Light within you, and therefore have infinite potential to create wealth.

Discover where your heart is - what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return.

Sun in Pisces:

You would rather give than receive, but you will still do fine because the good karma you put out to others in need will come back to you when you need it, and this includes financial prosperity.

The areas where you would make the most money would be imaginative and creative fields such as art, music, writing, and dancing.

Your perception tends to border on the psychic, and you would be able to size people up in financial situations and know how to present your requests. You would also have a good awareness of economic under-currents and be able to use this knowledge in your financial decisions.

Sun in 5th house:

You attract prosperity by being a leader in bringing sunshine into other people's lives. You may do this by being an entertainer, musician, actor, camp director, day care supervisor or resort owner.

Because you make others happy, through your generosity and positive inspiration, others are happy to look up to you and reward you financially.

Sun Trine Neptune:

You could enjoy financial success as a spiritual healer. Your intuition and psychic perception are keenly developed. Your approach to finances would be on the higher, spiritual plane. To manifest wealth in the physical plane, you would have to have a good spiritual reason for doing so.

Depending on other factors in your chart, you could be successful in the stock market, but you are best advised to put your money into companies genuinely helping the environment.

Chapter 2: The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Aries:

You would feel more comfortable being an entrepreneur than most people, because you grew up in an environment which prepared you for this. You were expected to be independent and compete for yourself, and now you are very good at it. You might have your own store, or you might work out of your own home. Your effectiveness in making money will increase if you remain physically fit and active. Because of your positive attitude you are not deterred by setbacks and you move right ahead.

Moon in 7th house:

You would be very happy in a secure marriage, and you would be very caring about your spouse as well. Together you could build for your financial security. You may undertake a joint business venture where you would frequently be dealing with the public. You would enjoy the sociability of looking after the clients or customers. You are a natural peace-maker, and your work could involve helping others achieve domestic harmony. You could consider a flower or gift business.

Moon Trine Uranus:

You are very psychic and intuitive and might make your living as an astrologer. You are likely to be lucky in lotteries and games of chance, because you receive flashes of

inspiration as to what numbers to enter and when. This aspect favors a home business using a computer. You might also profit from original ideas or inventions.

Chapter 3: Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Pisces:

You have a photographic memory and a talent for visualizing scenes in your mind. You could visualize yourself with lots of money, being able to carry out all of the things which are important to you. Creative visualization, if combined with a grounding exercise before your meditation, can result in the actual, physical manifestation of whatever is imagined.

Mercury in 6th house:

You have an excellent mind for detail and you may be successful in the health or nutrition field, where many precise facts need to be remembered. You are concerned about cleanliness and could work as a cleaner or perhaps as a public health worker or environmental worker concerned with clean air and clean drinking water. Your pattern of thought for acquiring prosperity is that it is received in return for being of practical service to others.

Mercury Square Jupiter:

Your key to prosperity is to learn to put into practice what you preach. This involves having confidence in the quality of your ideas and their relevance to the real world. If you do not have a practical outlet for your thoughts, your high energy level will cause you to try projects which are too big, or to brag and promise rather than do. Include physical activity into your teaching, such as taking your students on guided hikes out in the field.

Mercury Trine Part of Fortune:

What a joyful position for being able to enjoy the benefits of higher education! You are rewarded with wisdom and knowledge, a good income and the ability to make the world a better place. You can enjoy travel and all of the learning and teaching opportunities which it brings. You can find great satisfaction in being an expert who can uplift others to a higher plane of enlightenment.

Chapter 4: Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Aquarius:

You stand to make good money from your innovative ideas. New ideas are valuable, and others will pay you for them. You could succeed as an inventor by getting one good idea patented and then making money every time one of your inventions is sold. You could profit from anything electrical or electronic, such as computers. Your network of friends could be a good source of money-making opportunities. Your approach to investing would be unorthodox, but will still be inspired.

Venus in 4th house:

Your best place to make money is in your home. You could either do the traditional work of caring for children and supporting your spouse's work, or you could work at a profession at home, such as a computer career. You could turn your cooking or gardening talents into a career, or you could get into farming. There is also money to be made by investing in real estate, coins, silver, jewelry, or antiques.

Venus Conjoint Mars:

You need to guard against spending your money impulsively. As long as you get enough physical exercise, you will not be tempted to make impulsive purchases for excitement. Make sure, too, that you avoid trying to get others to spend their money when they do not want to. On the positive side, your initiative with money is helpful if you have money invested in something which is not making a profit, because you will have the assertiveness to take it out and put it into something better.

Venus Square Neptune:

Make sure that you deal only with established, trustworthy people and companies, and that you do not get taken in by financial scams. There is no way to "get rich quick", regardless of what con artists may claim. Have a practical person - preferably a Virgo - handle your financial affairs for you, so that you can live in your ideal, dream world without losing money. Avoid any kind of financial speculation.

Venus Trine Asc.:

Your wonderful ability to convey an appreciation of beauty and harmony to others could lead to a successful career in music or art. Your marriage is likely to be happy, and you would cooperate well with your partner to create mutual prosperity. You are likely to meet and favorably impress people who are in the position to help you advance in your career. Your investments are destined to be successful, in keeping with your positive attitude about money.

Chapter 5: Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now? Where can you apply your initiative and become more independent? What kind of new venture would you like to start?

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Aquarius:

Your life-goals are likely to be very original, futuristic, and humanitarian, and you pursue them with energy and enthusiasm. You are confident that you can make the world a better place. You seek to make others more open-minded and free. Your methods of being paid for your work will be unusual; for example, you may be part of a

profit-sharing co-op or you may get paid electronically via internet. Your investments will be in progressive causes, such as a green economy.

Mars in 4th house:

You could prosper by working on the land and caring for it, as a farmer or gardener. You might also enjoy owning your own little shop and caring for the customers. You would have talent in the field of home renovations. You are likely to inherit a "green" business of caring for the environment. You have a tendency towards thinking emotionally and impulsively, so be cautious in selling property or buying investments.

Mars Square Neptune:

How you use this aspect will depend on your level of self-awareness. For those who have not become self-aware, it can indicate a need to guard against being deceived out of your money. That would indicate a subconscious state of self-deception and self-negation. However, if you have good self-esteem and positive core beliefs, you will be very successful in being able to imagine creatively what a state of prosperity would be like and then actually manifest it.

Chapter 6: Jupiter

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

Jupiter in Sagittarius:

You naturally have such a positive philosophy that you could create prosperity in virtually any situation. If you went to a new town with only five dollars in your pocket, you would not only survive, you would become a great financial success. That is because you are so aware of the higher consciousness above physical manifestation that you

would perceive prosperity in your mind and then see it created in front of you. Avoid being ego-attached to your good fortune, and use it to uplift the faith and optimism of others.

Jupiter in 3rd house:

Your investments in anything to do with travel or communication are almost certain to pay large dividends. You could travel and give lectures, be a tour guide, or run a travel business, or teach in a foreign country. You have a talent for learning about other cultures and languages, and you could make a living from this. You could own or co-own a transportation company, or a shipping firm. You are likely to be highly educated and in a good position to make money.

Jupiter Trine Pluto:

This is a very powerful and favorable aspect for acquiring a huge amount of money and finding happiness with it. That is because you are above the plane of being attached to money and you are instead very much in tune with your higher life mission of making the world a better place. You will transform the lives of many by teaching them how positive, spiritual beliefs can uplift them from poverty and make them prosperous. You could invest in economic programs abroad, charitable foundations, publishing, or exporting.

Chapter 7: Saturn

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

Saturn in Capricorn:

You have superior ability to bring your goals into actual manifestation. That is because you accept the fact that hard work is necessary to get ahead. You also have

excellent organizational ability either to prioritize your own tasks or to get others to do work, so that the results and profits will be multiplied. To be successful, you need to remember to keep the goals, and not just the work, in mind. In that way, you will remain cheerful and gain the cooperation of others.

Saturn in 4th house:

Because you likely grew up in a home with limited financial resources, you are motivated to work hard to achieve your own security. You have the potential to make money in real estate, and you would provide good service for your clients. You could also find a career in working in a small, specialized shop such as a flower shop or environmental store. Any profession relating to the land such as organic farming would also be suited to your caring and realistic talents.

Saturn Square Asc.:

Because of your strength and stamina in doing hard, physical work, your perseverance will lead you to a steady income and advancement. You are able to handle difficult conditions for survival, such as cold weather or challenging terrain, and still accomplish the serious tasks upon which others rely. You are best suited to employment where there is a defined task to be done, rather than an idle, social environment.

Chapter 8: Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thoughts have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Leo:

You were born into a generation of people who had a great deal of self-confidence about their right to express their freedom. They openly question everything, and the

economy changed as a result. They believed that they could wear whatever they wanted, as long as they did their job, and employers had to adapt to this change. In fact, most forms of authority were very successfully changed. Consumer rights gained ground, and workplaces became more cooperatively oriented.

Uranus in 11th house:

You were born with a talent for making group energy work for the benefit of all. Think of the success you would have if you started a prosperity group! Everyone would come up with unique ideas and help each other. You understand how interpersonal cooperation leads to saving too. For example, a food co-op, in which everyone donates a few hours of work, allows you to get healthy food at low prices. A condominium, in which expenses are shared, is cheaper than a house, and so on.

Uranus Square Part of Fortune:

You are dedicated to finding ways of bringing your ingenious insights about prosperity down to the level where others can benefit from them and the earth can be elevated to a higher, spiritual plane. You are very enthusiastic about the possibilities for this. You envision the possibility of miracles, and of groups meditating on individual and world prosperity. You are on the forefront of new thought and new solutions.

Chapter 9: Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

Neptune in Scorpio:

You were born at a time when the economy had secret strategies going on and the world's economy centered around drugs, arms, and oil. The strategists made money but many people became poor and/or addicted. Yet, there was great depth of emotion and

compassion, and the intimate ways in which people shared their feelings protected their happiness and gave them a sense of well-being, however illusory.

Neptune in 2nd house:

You would have talent as an architect, because you could envision how a nice, new building would look and then be able to get it actually built. You dream of wealth and may be able to make your dreams come true if you can become focused enough and grounded enough that you do not just let the dreams be sufficient, rather than do the actual work over time to make them happen. You also need to make sure that, if you acquire money, you keep track of it and do not just let it disappear.

Chapter 10: Pluto

The contribution of Pluto - the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

Pluto in Virgo:

You were born in an age when health care changed greatly, with the realization that preventive and holistic methods of healing were the key to self-empowerment and individuals were responsible for their own health. An economy grew out of this of alternative healers and client-centered practitioners. Health food stores became popular because of concern about the purity of food. Methods of health care from other countries became known, such as yoga and Tai Chi. New advances in health research were made.

Pluto in 11th house:

You have tremendous potential to do great social good. This could lead you into a career in community work, or municipal politics. You are more concerned with higher ideals than with money, but if money is what is needed to achieve your ideals, you have

a brilliant mind to figure out how to obtain it, and you have a whole network of friends to help.

Chapter 11: The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career; the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind. Therefore, others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Libra:

Your prosperity greatly centers around your partner. You are very cooperative with your partner in agreeing upon your equal assets and how to invest together. In fact, you could even run a successful business together, given your superior ability to get along harmoniously. Your work would likely be related to law, mediation, or public relations in other words, sharing your vision of harmony with others. It is because of this excellent karma which you create that you will be rewarded with prosperity.

Chapter 12: The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Scorpio:

Your prosperity comes from your realization of your own rebirth. You have searched deep within and found the divine source of your own creation and you have concluded that you are, therefore, always the child of a perfect God. You are now celebrating, with great joy, the deep meaning of your own life. Your prosperity and joy continue, as you now encourage others to look within and discover the true meaning of their lives. You rejoice as you see them find their own Light deep within, and as you witness their profound transformation.

Part of Fortune in 2nd house:

This is a very fortunate position for acquiring large amounts of money, provided that you are clear about what your inner values are. If you need money to achieve a goal which is in harmony with your values, you will easily acquire the money, because your thoughts will be in harmony with receiving it. However, if you do not need money, you may still be handling large amounts of money, but the expenses will equal the profits. Set inner, spiritual, meaningful goals, so that your ability to earn large amounts can be used to make the world a genuinely better place; that is the purpose for which your God-given fortune was intended.
