Introduction to Karmic Astrology

The effects of past life experiences can carry over into your current life, accounting for interests, habits, even phobias which would defy explanation by conventional methods.

This report examines possible past life connections using astrological methods. It is not intended to be taken as a complete interpretation of your birth chart; it looks at your chart from only one perspective.

It is written in simple language, avoiding the use of astrological terms as much as possible. For the interest of students of astrology, relevant astrological references are made at the top of each section.

There are certain factors which indicate a need to seek further answers through past life regression. If you find reference to this within your chart, you may discover that your spiritual growth will be enhanced by using this method. (Note: Individuals with a number of these indicators in the chart have probably already experienced spontaneous regressions.)

Not all charts will indicate a need for regressions. If your report does not indicate such a need, then it is most likely that discovering your past lives through regression is of little interest to you this time around.

Chapter 1: Most Important Prior Life Experiences

In traditional astrology, the Twelfth House represents your self-undoing, hidden matters and the subconscious process. It is believed that we carry karmic memories in our subconscious, and that these subconscious memories can undermine our current life efforts.

When we remove the walls created by subconscious fears and guilt, we find that the path to personal transformation lies beyond.

If, in your chapter you find a number of descriptions of planets placed in your twelfth house, consider exploring your hidden self through past life regression.

12th house cusp in Aquarius

You have high ideals about social issues and humankind. You fear losing your friends, so you keep your real opinions and feelings hidden. Learn to confide in and support your friends, and they will do likewise for you in your time of need.

Look for a significant prior lifetime where you went against convention and expressed yourself in a free and unhindered manner. You may have had a prior life as a social worker, union organizer, scientist, political activist, academic or have participated in revolt or uprising. In ancient times you may have been an astrologer or alchemist. You may have been ostracized or imprisoned for your beliefs or actions.

Aquarius 12th House, Pisces Rising

You are intuitive, sympathetic and adaptable. In your prior life you freed yourself from social conventions and in this lifetime you can free your soul to reach great heights of spiritual awareness.

Chapter 2: Saturn (The Great Teacher)

The source of many of our self-imposed restrictions can be found in the placement of the planet Saturn. The location of Saturn in a horoscope represents the area of life where we have to learn the greatest lessons. It is through these lessons that we grow and improve.

Just like your least liked teacher in school, Saturn's lessons require hard work and self-discipline. And like the lessons from that teacher, Saturn's lessons are not easily forgotten. The lessons you learn help you to find order and security in your current life.

When a lesson from a prior life was not learned, you can experience inexplicable guilt or self-restriction. Exploration of the unlearned lessons of Saturn can free you to use all of your natural talents.

Saturn in 9th House

You have a very serious interest in religion, philosophy, higher education. Your ideas are very conservative and traditional. You value your reputation and can contribute to maintaining traditional social values as you mature.

You have a fear of public disapproval, because, in a prior life you were outspoken and acted against social conventions of the time. You may fear long distance travel or dislike certain countries without rational explanation. Your fears and dislikes are rooted in prior lives where you suffered or died while taking a journey or living in a foreign country.

On the positive side, you base your personal philosophy and actions on what you believe is right, not what is acceptable. You are moderate, diplomatic and steadfast in your beliefs.

On the negative side, you may rely on religious dogma, fearing that any other position would lose social acceptance. Continuing along this path will narrow your viewpoint as you mature.

You have the opportunity to make serious studies of religion or philosophy to find the spiritual answers you need. When approached sensibly, you can use your conclusions to assist others in finding their own spiritual path, not based on religious dogma, but on our responsibility to humankind.

Saturn Square Moon:

Emotional reserve was necessary for your survival in a prior lifetime. This time around you are still feeling that restraint. Sometimes, you find it difficult to express your emotions to others, causing you to feel very isolated and lonely. Learn to have faith in your own abilities and trust your intuition. Development of your personal philosophy will help to provide a sense of emotional security.

Saturn Trine Venus:

Emotional and practical needs have been balanced in prior lifetimes. This time you are loyal and trustworthy, carefully choosing your friends, who will also have these traits. You are still very reserved when it comes to demonstrating your affection, but your friends admire you for your courage and strength.

Saturn Trine Uranus:

You are able to remain calm in critical situations. In prior lives you survived chaos, revolutions and natural disasters. These past life memories can make your current life seem tranquil in comparison. You are capable of enduring very tense situations for a long time. You are persistent in your quest for knowledge, giving you natural teaching abilities. Take care with your physical well-being when under stress for prolonged periods of time.

Chapter 3: Jupiter (Your Karmic Gifts)

Personal karma is not necessarily negative. You bring to this life certain talents and interest which enable you to expand your horizons. Often overlooked for its karmic value, the placement of the planet Jupiter in your chart can tell you about your karmic gifts.

Jupiter describes spiritual rewards as well as the area of your current life where you may experience material gains.

The lesson of Jupiter is best described as the acceptance of the law of karma. The rewards you reap in this life time come from your prior life's good deeds, and your future benefits (this life or another) are the rewards of your present fair dealings and generosity.

Jupiter in Libra

Fairness, justice and social harmony are your goals brought over from a prior life.

You are generous with your considerations of others' needs, so you are well-liked. An ideal marriage for you would be with someone who shares your sense of social justice. Your prior life spent promoting justice and morality is expressed by your interest in religious charities, educational foundations and concern for the socially disadvantaged.

Jupiter in 8th House

You have strong beliefs in life after death, and under some circumstances can be very telepathic. In a prior life you administered the estates of clients in a selfless manner and your tireless efforts to ensure that all beneficiaries received their rightful inheritances has enabled you in this life to receive benefit from insurance, bequests, or joint finances.

Jupiter Conjunct Neptune:

Spiritual understanding in prior lifetimes enabled you to relinquish personal ambition and power in favor of a greater Power. Inspiration came to you in philosophical, psychic or artistic matters. Your past life memories give you empathy and psychic gifts, along with a generally optimistic attitude. Your concern is to temper your optimism with common sense; you tend to see positive outcomes for every situation, when in fact, the opposite may be true.

Jupiter Sextile Mercury:

Generosity with your knowledge in prior lifetimes has given you good communication skills. In this life, you can speak openly and honestly, giving freely of your lifetimes of knowledge. Opportunities may come from the communication or travel industry.

Jupiter Sextile Pluto:

You have experienced many transformations and upheavals in prior lifetimes. These karmic memories have given you a great deal of inner strength and power. You are very strong-willed and you have a definite sense of right and wrong. You may possess many research and diagnostic skills necessary for promoting the healing process in yourself and in others. Your past life experiences enable you to face the challenges ahead with the understanding of the need for change.

Chapter 4: Nodes of the Moon (Your Karmic Doorways)

The point on a horoscope chart called the North Node of the Moon is not actually a planet, but can be thought of as a doorway from your current life to your future. And, its opposite point (the South Node of the Moon) can be thought of as a doorway from your past life to your current one.

These two sensitive points can show you what goals you are concerned with in this life and what habits from prior lives are holding you back from reaching those goals.

North Node of the Moon in Libra

Personal advancement and gain were important to you in prior lifetimes. Your sense of self-importance was exaggerated, and you may have used your physical attractiveness to gain undue advantage.

The drive and competition you have exhibited in past lives is still evident today. This time around you need to learn to work with others as opposed to your former "lone wolf" style.

You have probably spent past lives as a soldier, explorer, pioneer or inventor.

In this life, you have many strong likes and dislikes and you are not afraid to let people know what they are. You can be envious of the advantages others have, thus making you bitter about your own lot in life.

In order to maintain the balance between your two karmic doorways, you need to learn that selfishness will only increase your bitterness. The joys of sharing and cooperation will bring you untold personal satisfaction. Use your strong sense of justice for the betterment of humanity, not only to advance your personal cause.

Chapter 5: Planets in Retrograde (Reversed Energies)

Planets in a horoscope chart which are marked as being in retrograde motion, hide or reverse the true energy of that planet.

From a perspective of past life experiences, this usually means that some experience in a prior lifetime was so negative that the individual refuses to use that planetary energy in any manner.

Mercury Retrograde

Communication can be difficult for you in some manner. You may find your ideas difficult to relate to others; or, you may have experienced, sometime in your life, a case of extreme shyness.

In a prior life, you may have participated in a situation where you misused the power of communication, by gossip, inflammatory speaking or writing, or twisting the truth, to make advantages for yourself.

Your lesson in this life is to speak the truth when you do speak and to govern your actions by your code of ethics.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:
