***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** **FIRST PART** *****

Chapter 1:
General characteristics of the year. The external conditions.

Solar Return Ascendant Virgo :

Your mental or intellectual activity will increase considerably this year. Your capacity to analyze and your attention to detail will be greater. You may feel the desire to study something new, or improve the way you do your present work. You may get more interested in service projects which improve the lives of others. You may concentrate on helping those around you by solving problems, distributing information on health issues, or getting involved in environmental concerns. It's important for you not to neglect your own interests. However, you will find that, in one way or another, the things you do for the benefit of others will bear fruit for you in the future.

You could get so engrossed in your work that you lose yourself in details. Having a practical outlook is the key to finding good solutions. Don't spend too much time unnecessarily analyzing data and avoid wasting time on unimportant things. Deal only once with matters that you have to attend to. Then come to a conclusion and don't turn back again to analyze the topic in question. This only wastes a lot of time, entangles you in your own thoughts and has an immobilizing effect on you. If by nature you are less than meticulous in your work, you may find it easier to organize your thoughts and your work this year. If you are already very detailed and analytical, you should try to take time for some kind of physical activity so that you can remain more balanced between mind and body.

You could become less inclined toward a lot of social activity and be more drawn in and thoughtful. However, it is not good to be too reclusive and isolate yourself too much. This would give you too much time for self-criticism and dissatisfaction. You should see that you have a balance again between work and play.

Physically, you could be more nervous than usual which could result in intestinal disorders or other illnesses caused by nervous tension. It could also cause insomnia, brought on by too much mental work and excessive worry. It would be advisable to practice techniques such as Yoga to calm and focus the body and the mind. Highly competitive activities should be avoided if possible. You also should maintain a balanced diet of foods that are easy to digest. You will be inclined to want to improve your body and your health this year. It will come naturally to you now, and it would be a good time to go on a diet, if you feel you need to. You could benefit by boning up on subjects such as nutrition and the various kinds of alternate medicine that are available to you. Good health is one of the themes for this year.

During this period you may come in contact with intuitive and sensitive people who will share with you their hunches and visions of things to come. It would be wise for you to listen to what they say to you if you believe they might be relevant and true for you. Examine them carefully and determine their value. But, on the other hand, don't accept everything you hear without question. Be discerning and evaluate everything.

You will find yourself being more cautious and critical in your relationships. Things that never used to bother you will now become issues for you. You may not see your partner as clearly as before. You may find Pisces natives entering your life this year. Although you will find them appealing, you could also be annoyed by their emotional approach. And you may find them too dreamy and impractical for your Virgoan thinking.

Solar Return MC Gemini:

Your professional activity will be diversified during this period. You will impress others with your intelligence and your ideas. If you are a fairly stable person, this year will be more exciting and productive. If you are bored with your work, you could change jobs, even going into a different kind of work during this year.

This influence favors activities related to communication, short journeys, publications and the gaining of information in general. During this year you may develop your ability as a writer, journalist, speaker, translator or publicist. No matter what you undertake, you will be more involved with expressing your ideas and receiving the ideas of others.

You should be careful not to spread yourself too thin, taking on too many projects though, because then there is the danger of not really accomplishing anything well, or not finishing those you start. Although you may be restless and have trouble staying with any one activity for long, you will use this time well if you complete the projects that are most important and rewarding to you.

You will probably make several short journeys during this year, some of which may be business related.

Activities with siblings and other close relatives will be important. There is a possibility of doing some type of business with them. Your home life will be more active and busy. You may make some changes there, or even consider moving (if other indications in this report confirm it). You might even be attracted by the idea of living in another country.

Chapter 2: Astrological influence of your personality.

Sun in 10th house:

No matter what difficulties you may have in your life, this will be a year of progress and advancement. Your ambitions will be very strong. And you have a will to work hard and to get your ideas across to others.

During this period your professional success and the recognition of your work will increase. You could receive honor and prestige and an increased sense of satisfaction. If you work for someone else, you might get a promotion along with a raise for taking on responsibility and authority. If you are independent, you will find your customers or clientele increasing due to your positive and professional attitude toward your work. In either case, you can count on aid from others who are in a position to offer the necessary help for your advancement.

Your ambitions and important goals will thoroughly fill your mind and you will have the necessary energy to achieve them. It will be important that you are confident in your own decisions, ideas and intuition because success will only come if you trust yourself.

You will probably make certain purchases or investments that will improve the quality of your life, changing your social status or economic situation. There could be a paternal figure entering your life who will also be prominent in assisting you.

Remember that this is to be a year of advancement, even if other adverse astrological influences are present. It should be possible to resolve your problems to your satisfaction due to your dynamic, determined and active participation.

Sun conjunction MC:

Your ambitions and desire for progress will be accented. You will concentrate your energy on your work, search for a higher position, and fight to achieve your objectives with a strong will. This year your ego will dictate and will be expressed as never before. Your relationship with your superiors could be beneficial or detrimental to your progress. If your boss agrees with your goals, you will get all the support you need. But if he is not supportive of your ideas, you will face opposition and restriction. Try to use diplomacy and tact in dealing with this. This influence also favors your personal plans and goals. If you were to undertake an independent activity, it would work out very well.

As a result of this year you will have a more impressive reputation. You will be more exposed to the public than usual. You may receive criticism or opposition, but it will only strengthen your position. Put all your energy into your professional or work projects, and you will get the success and progress that is due you. This is a year of action and big achievements.

Sun square Asc:

During this period your energy will increase a lot. However, you might use it ineffectively. You could use your energy trying to impose your will on others or fighting with people who try to dominate you. You could also become more selfish and rigid in your way of thinking. Your interests and desires will probably collide with those around you. Be careful to act in good conscience. Your personal vanity or your excessive pride will be your enemy during this time. You will blame everything on others because you won't be able to recognize and acknowledge your own errors.

The relationship with your father, or with other people who represent a certain type of authority, will be difficult. You will feel unjustly imposed upon. You will find it very difficult to live peaceably with others during this year.

It is important to watch your energy level and your nutrition. You should not allow yourself to get to the point of physical exhaustion. It is advisable to adopt a diet that supplies your body with the proper nutrition to keep your strength up.

Sun trine Saturn:

During this year you will put your life in order. Your energy will be used in a practical manner and your efforts will be rewarded positively. Your concentration will increase and you will be very objective and realistic, which will enable you to advance in a concrete way and on solid ground. During this time you could review your work habits and decide to discard those that are negative and incorporate new habits that improve you as a person. One of the qualities that will stand out is your ability to persevere against any obstacles.

This astrological aspect brings order into your life. You will be able to organize your time better and to take advantage of the time that is gained. You will have a serious and responsible attitude toward the events and happenings which come your way this year, thereby bringing you support from people in authority as well as your friends in general.

In addition, because of your great desire at this time for stability in your life, you might want to invest in furniture or improvements in your home. The actions you take during this year will benefit you a great deal in later years. Studies or intellectual work that requires a maximum of concentration and attention to detail will also be very favored.

You will have strong, consistent physical energy which will make it possible for you to meet your responsibilities calmly and surely. Remember that your key to success for this year is discipline, order, and action.

Sun sesquiquadrate Pluto:

You could be inclined to be more impatient and inflexible than usual during this time. Be careful not to lose control when your will is opposed by others. You could have conflicts with people in authority. There is a possibility that someone in power will try to control you or, on the other hand, you may want to dominate others.

It is important to stay away from people or places where you might find yourself getting into some kind of trouble or difficulty.

Sun semisextile Uranus:

Your creativity will increase and you will have new ideas about how to change your daily routine. This year will offer some very beneficial surprises. Also, you will feel renewed interest in the occult sciences and the mysteries of life. Your intuition will increase. It would be a good time to concentrate on developing it even more.

Chapter 3: The emotional world.

Solar Return Moon in Aries :

Your emotions will be intense and strong. You will show great enthusiasm and vitality and a considerable increase of your own self-esteem. On the other hand, you could also become more anxious and impatient than usual and express your feelings too strongly which could offend some people. Try to be more considerate and harmonious or you could have problems with the public in general.

Under this influence, you will be acting with a certain lack of finesse, which could at times cause problems with others, especially women. The relationship with your mother, or with other women in the family, could become complicated with arguments and disagreements. You will be too frank and direct in your speech, which could easily hurt other people's feelings. On the positive side, this influence could cause you to be more protective in defending your loved ones. If you could manage to be a little more sensitive during this year, you could accomplish a great deal more. Either way, you will be acting from your emotions and feelings.

You also will have an inner desire for adventure, challenge or risk taking. You will have more courage and won't be afraid to face adversities. However, it's important not to go to extremes. Use caution and don't expose yourself to danger. Use this positive energy for your own progress and personal growth.

Any physical activity will be good for the discharge of negative emotions. Think before you act and don't let impatience and aggressive feelings dominate you.

Solar Return Moon in 7th house:

This year will bring a change in your life. If you are not involved in a relationship, you will be inclined to find someone this year. If you are already in a good relationship, you will experience important changes in your daily routine. The kind of changes will be determined by aspects to the Moon, as described in the following paragraphs. This could be the year you commit yourself to a long-term relationship.

You should be careful in the decisions you make because you will be inclined to sudden and capricious actions which could hurt your relationship in some way. Your life and actions could be more public this year. Guard against giving others a reason to gossip about you. . This astrological influence will bring both positive and negative responses from others.

On the other hand, you will receive much support from the women in your life.

Moon conjunction Neptune:

You will be hypersensitive and emotionally vulnerable to the energy of others. You will tend to absorb the energy like a sponge, which could sometimes be unpleasant as you take on the problems and unwanted tensions of negative or unhappy people. It is wise to avoid this kind of person if at all possible.

On the other hand, your imagination will increase greatly. You will spend more time in your dream world and forget about your problems. This influence could cause you to take on an escapist attitude, if you are not careful. There also is the possibility of acquiring bad habits such as cigarettes, alcohol, or drugs. You will be more idealistic, which could cause you to be deceived by others as you will not be facing reality head on. The pain resulting from this could cause you to want to escape in some way or another. Try to think more realistically about the people you

associate with. Under this influence it is possible for you to be disillusioned or betrayed by your friends and associates. You could easily end up being the victim, although it might not really be as bad as it will seem to you.

Your ideas and your emotions will be difficult to express with words. During this time you will develop your creative and artistic talents more easily, especially in the fields of music and poetry.

Moon square Venus:

You will have a strong desire for pleasure and harmony this year, but will not always be able to achieve it. The search for enjoyment could cause a degree of emotional and financial imbalance for you. Control your spending; otherwise, you will acquire unnecessary debts. There is a tendency to act on a whim without thinking first during this time.

You could become more protective than usual toward your loved ones, which could lead to your attempting to control their actions or to become too possessive. Watch out for a tendency toward uncalled-for jealousy and control.

You could also become attached to certain emotions, memories, or relationships from your past that could cause a problem in your present relationships. Your emotions will be intense but not very stable this year which could lead to difficulties and undesired changes in these current associations. If you don't have a steady partner, you will probably seek out more than one new relationship this year, none of which will be serious or on solid ground.

You should select your friendships carefully. Otherwise, you will be subject to gossip or public scandal because of the places or people you associate with.

Moon trine Mars:

You will show great vigor, vitality, and enthusiasm for taking action during this year. You will be very quick-witted and will always know when to take action. You will be efficient and fast-moving, when necessary. Your trust in yourself will increase along with faith in your own opinions, which will attract others to you. You will be very convincing and will earn the support of the public in general. You could become a leader during this year.

You will begin several projects and can rely on the necessary energy to carry them out. Be constant and don't deviate once you have initiated a project. You will be able to rely on the support of your family, especially your mother and other women in your environment.

You will be intense and full of positive feelings. You will radiate enthusiasm, ambition, and courage. Physically, this influence is so beneficial that it will give you a high level of vitality, energy, and vigor. You will recover very rapidly from any illness.

This influence impels you to dynamic action and it would be a very good year for setting many goals. Remember that your active participation is necessary and you should not wait for others to improve your life, because now is the time for you to take action.

Moon sextile Pluto:

Your emotions will be very intense but, at the same time, very stimulating and rich. You will see everything and everyone around you to be more profound and powerful than usual, which will lead you to search for relationships that are not superficial, but allow you to express your more intimate emotions. During this time childhood memories or traumas will emerge from your consciousness that will let you see, with much more clarity, the motive for your current reactions.

You will discover your true self which will give you more trust, clarity, and the capability to confront your life in general.

It is important that you don't repress your emotions this year, but express them freely. It also will be important that you control obsessive and stubborn behavior. Romance and your sex-life could become very enriched. If you are in a committed relationship, you should be feeling confident and on solid ground with your partner, but be careful not to become too bossy or manipulative.

You could experience some changes in your home or family life that will be very beneficial. The relationship with your mother, or other women in your life, will be very profound, intense, and more spiritual.

This will be a year of renewal and emotional freeing up. Encounters with your past and your own history will allow you to get to know yourself better, and if you don't resist these new feelings, you will have a very positive year.

Moon semisextile Jupiter:

You will be very benevolent, optimistic, happy, and agreeable. This will increase your popularity, resulting in your receiving favors from the public, particularly from women in your environment.

Your positive attitude will bring you luck in all aspects of your life. Family relationships will be very beneficial and existing disagreements or problems could be overcome now.
