Introduction

Your Environment Therapy Report provides an astrological analysis of what you are likely to experience in the cities and towns that you selected. The astrological influences are listed very approximately in an order from strongest to weakest, so that the information provided earlier in the report has a more powerful effect on you than the information provided later in the report.

"Environment Therapy" refers to the ways in which different geographic regions affect our attitudes and behaviors and even our physical health, and how we can use this information to enhance our well being and health. Some of us feel rejuvenated at the beach or we feel more alive, enthusiastic, and energetic in certain cities, or we feel a need to periodically hike mountain trails. In different ways different environments are therapeutic for us.

Also note that you may prefer a particular beach, hiking trail, or city more than another even though there may be no obvious tangible reason for why this is so. One person visits Chicago and loves it, and another person with similar tastes and proclivities visits Chicago and finds that nearly every other city is preferable. We react differently to different locations, and one can never be certain how a given person will respond to a particular place. There seems to be a certain kind of chemistry that develops between a person and certain geographic regions just as there is a special chemistry between people. This is where the astrological influences may be relevant. The astrological influences may be able to indicate how we function in different locations.

Of course the demographics of people living in the area, the climate, topography, etc. of an area are vitally important, and the astrological influences are not the only factor that determines how we function in a given place! However, it is possible that astrological influences do play a part in how we experience different places.

Astrology is a controversial subject. One reason for the controversy is that astrology has not yet been scientifically validated. Until astrology is validated it is wise to regard astrological information with some caution or skepticism. Also, you should consult a physician or other health care professional if you are experiencing a physical problem! Although astrology has not been validated scientifically, many people do find astrological information to be useful and hopefully you find the information provided in this report to be helpful to you in finding a place that is most conducive to good health, and ways in which you can be as healthy as possible in whatever place you are located.

Asc Opposition Saturn (Orb:2 Deg 33 Min)

You can become involved in a relationship where the emphasis is on care-giving. Either you are taking care of someone else or vice versa. Being responsible and being a good friend or family member makes you a stronger and better person, but you must also find time to play, explore, and enjoy the gifts that life also gives. Otherwise, you can become too sullen, too constrained, and lose enthusiasm, which consequently your vitality, flexibility, and resiliency would be lowered.

Asc Novile Jupiter (Orb:0 Deg 09 Min)

A good place for healing therapies recuperation, relaxation, reducing tension, and pleasurable healing.

MC BiNovile Neptune (Orb:0 Deg 31 Min)

A good place to share your ideals and dreams with others. A sense of a spiritual community.

MC Opposition Uranus (Orb:3 Deg 44 Min)

Unexpected changes and a lack of continuity and regularity in your life can make this area difficult for health-related issues. Strive to maintain good sleeping habits and regular routines in your life. Your body may not be able to adapt as quickly to changes you experience as quickly as you are able to adapt mentally and emotionally.

Asc Square Sun (Orb:2 Deg 29 Min)

Your energy level is high here, and this is good for your health and vitality. However, you also tend to be confrontive and to encounter issues that are not easily resolved. Periods of frustration can cause you to feel burned out or hostile. Try to do your best to avoid becoming embroiled in conflicts and struggles. Otherwise, the stress and frustration will eventually manifest as a physical problem in one way or another.

Asc Square Venus (Orb:2 Deg 21 Min)

Romantic relationships are likely to be strong, but also require some adjustments. Relationships are likely to face some challenges. If you handle situations wisely, you can make a happy and beautiful life. However, to achieve this, you need to make some changes to your life style and your way of relating to others. Many psychologists believe that our emotional well being ultimately affects our physical health, so the manner in which you handle these emotional issues may eventually also affect your health.

Asc=Mercury/Uranus (Orb:1 Deg 46 Min)

Your nervous system seems to run faster here. Lots of creative ideas come to you, and you are likely to have more ideas than you know how to handle. If you find your mind is racing or the pace of your life is too hectic, find ways to re-center yourself and calm yourself. Take sensible steps to strengthen and stabilize your system. For example, making sure you are getting enough calcium and B vitamins is better than drinking so much coffee that your caffeine intake becomes enormous. If handled properly, this can be a place where you are creative and inventive.

Asc BiNovile Mercury (Orb:0 Deg 04 Min)

Desc QuadNovile Saturn (Orb:0 Deg 03 Min)

A good place to do social work, assist others, and give for the benefit of the community. These activities can help you mature and become stronger too.

Asc=Moon/Mars (Orb:0 Deg 02 Min)

You are more impatient in this area than in most other places. You are competitive and if you are athletic, this is a good place for you to train and compete. However, too much attention on competition can lead to a hot and fiery temperament and you may be prone to anger. If you find yourself becoming angry, remember that anger is not healthy, and even a quiet, seething anger is destructive both psychologically and physically. If you cannot find a way to channel this competitive energy well, then spending some time in other locations may help.

MC=Moon/Jupiter (Orb:1 Deg 13 Min)

You are likely to have a comfortable home, and most likely entertain friends fairly often as well. Health tends to be good, although you may tend to be indulgent, gain too much weight, and get a bit out of shape. If this happens, you are likely to find that you can regularly schedule time for enjoyable sports or other activities, and this will help you stay fit.

MC Sextile Saturn (Orb:2 Deg 46 Min)

This geographic area is excellent for vocational, career, and business pursuits. You have the discipline and ability to focus that are important for achieving something of real value here. The disciplined and structured life and clear focus are good for your health too. The only negative is that you can become so engrossed and dedicated to your projects that you do not take enough breaks. You may not take time some time to smell the roses. Be aware of this and build enough balance to keep you healthy, but not so much that it distracts you from the routines that you enjoy so much in this area.

3: **LONDON BRITAIN, PA** 39N45 75W47 8 CP 15 2 SC 02

Asc Sextile Saturn (Orb:0 Deg 47 Min)

Your self-control, capacity for discipline, and focus on things that are most important to you is very strong in this area. You are likely to find that you are able to diet, exercise, and build a healthy routine more easily here than you can in other areas. Consequently, your health tends to be good. In this area you are also likely to have trustworthy friends.

Asc Novile Mercury (Orb:0 Deg 54 Min)

A good place for counseling or group therapy, and also for seminars and workshops that are designed to heal, nurture, and support the attendees.

Asc=Sun/Moon (Orb:1 Deg 29 Min)

You are likely to have friends at work, and also be able to work on constructive projects at home with your family. This balance is healthy and tends to make you feel comfortable and well-balanced as well.

MC=Saturn/Neptune (Orb:0 Deg 31 Min)

You are likely to become more serious about your spiritual path and religion while in this area, and to make concrete and definite steps towards becoming a more sincere, deeper, more spiritually focused person. This area inspires you to make real changes to align your life with real and honest spiritual ideals. As a consequence you can grow as a person here and direct your energies to higher purposes. However, you may also give less attention to maintaining vital physical health, as your attention is drawn to inner longings and needs. If you are unwilling to develop more deeply as a person, these longings can register in your mind as a discontent with the life you have, while not completely really realizing that you must find fulfillment from a deeper source. Your physical health is sensitive and any neglect of the care of your physical health is likely to result in feeling tired or having colds or other problems. By bravely moving forward, being willing to follow your inner guidance and higher inner needs, and by maintaining good health habits you should be able to avoid health problems. Do not, however, take your health for granted, and make sure that you do things to stay fit and healthy.

Asc=Moon/Venus (Orb:1 Deg 34 Min)

Very strong, loving relationships develop here. Both loving friendships and strong romantic attachments are likely. Kind and loving people enter your life. This astrological influence is primarily positive, but you are also vulnerable. Strong attachments are likely, and caring for someone makes it more possible to be emotionally hurt. Choose people that you can trust. Strong bonds with loved ones, of course, have a big impact on our lives and affect our sense of well being and health as well. Emotions are related to the endocrine system and other physiological functions, and these physiological functions tend to be healthier when you are emotionally healthy. Form your close relationships with people you fully believe in, respect, and trust.

Asc=Mercury/Mars (Orb:1 Deg 53 Min)

You are mentally stimulated here. You may sometimes be inclined to arguments and disagreements with others. A good place for studying, learning, and writing, but you must exhibit some patience and self-control to maintain harmonious relationships. If you find yourself getting into arguments and controversies with others and you cannot find a way out of them, then you are likely to experience headaches and other symptoms. If you cannot find a solution to these problems, then you may find that a different location will work better for you. On the other hand, you may find that problems can be resolved with professional help or studying issues related to any arguments or tensions that arise.

MC=Sun/Uranus (Orb:2 Deg 23 Min)

Your life tends to be fast-paced and periodically take unexpected turns. There is lots of excitement and activity for you in this area. This is often enjoyable, but it can also be hard on your body. Make sure that you sleep well and maintain some regularity in your life.

MC=Venus/Uranus (Orb:2 Deg 27 Min)

You are likely to enjoy dance, night life, or relationships with humorous or eccentric people in this area. This liveliness keeps you from becoming too rigid, keeps life interesting, and also helps keeps you healthy. You are unlikely to have constipation or chronic tension in this location. Something seems to always loosen you up. On the other hand, you need to make sure that you have stability and regularity in your life as well, as the body needs regularity in order to work properly.
