***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

******* FIRST PART *******

**Chapter 1:
General characteristics of the year. The external conditions.**

Solar Return Ascendant Leo :

This year you will be inclined to express yourself in a more intense and dramatic way. Your authority will increase and you will try to impose your opinions on others and dominate each situation. There is a tendency to call attention to yourself and to exaggerate everything. In no way will you be unnoticed during this period and you will continually search for the approval of the public. Increased energy will impel you to undertake new activities or to work intensely on your projects, which could lead you to the brink of exhaustion. In general, this will be a happy time and you will be in good humor, providing that no one opposes you; otherwise, you may respond in an impatient and sometimes aggressive manner. If by nature you are a timid person, this year will show a great change in your personality and you will fight, more than usual, to attain the place in life that you think you should have. But if you already are a person of strong character, you should remind yourself of this extra forcefulness you feel and avoid falling into situations where your pride and selfishness can get you into trouble.

Your creativity will be notable and it could manifest at all levels. If you have artistic abilities, this is the year to dedicate your time to them, since you will feel a great personal satisfaction in developing your talents. Your personal magnetism is also accentuated during this period, bringing love affairs, conquests and adventures. No doubt you will participate in numerous parties and amusements in general. You also could be attracted to games of chance and can expect a certain amount of luck. There is a possibility of receiving income from some speculative business too, where a certain degree of risk is involved. You will have high physical energy and will enjoy the practice of any sport.

Some people in your environment may feel the effect of your somewhat domineering approach but will not try to inhibit you. This year you will want to start many new projects. You will probably make them public before your next birthday. To avoid tension, you should try not to insist on having your own way with projects and endeavors that you are not directly involved in.

It will be a year of great activity. It is important that you maintain a good balance and that you alternate your activities with periods of rest. You run the risk of over-extending your efforts and arriving at a point of exhaustion. If you have any problems with your heart, you should be especially careful this year. However, in general, a serious illness is not likely due to your strong vitality, fortified by the Sun.

You will be guided more by your feelings than by reason during this time and therefore your romantic encounters are inclined to be less conventional or less durable. If you are in a committed relationship, it would be advisable not to try to dominate your partner as you will probably come on a little too strong. And this could cause a problem in the relationship. If you are single, you will encounter new situations, but they may not be long-lasting.

This is not a good year to resolve unsettled issues from the past or to try to get approval from the public as you may have in previous times as you will tend to be more demanding and revolutionary than normal and may alienate others by your forcefulness.

Solar Return MC Aries:

This year you will be concerned with new ambitions and new enterprises. You will want to be very busy and want to get involved in something new. This year is a year when you will want to be the in first place. Professionally, there is a possibility of attaining a position of authority, and you will find it easy to express your ideas in your work place. However, you also can expect some disagreements or tension on the job. You will need to show more than average patience and understanding with your co-workers and associates.

If you are thinking of changing your occupation and beginning something new, this could be the year! You may acquire a position as supervisor where you would be in charge and responsible for the employees under you.

You will search for security and stability for yourself and any others for which you are responsible financially. However, you will also will be very eager to take action. It won't be easy to find the balance between satisfying your own desires and fulfilling the obligations you have.

You may become interested in making some changes in your home environment. As you get more active in your work, you will look for peace and balance at home. You could get the urge to do some decorating around your home. You will find your home more enjoyable now. It could be a place of harmony in comparison to everything else. Any conflicts or difficulty in your home can be resolved more successfully. You will want to entertain more than usual, and will enjoy relaxing with friends and acquaintances.

Chapter 2: Astrological influence of your personality.

Sun in 7th house:

Under this solar influence you will seek balance in your emotional life. If you don't have a partner, chances are that you will look for one. Possibly family members or a close friend might introduce you to someone. If you are already committed, this influence could bring you closer and you will spend the majority of your time this year with him or her. If you have plans for marriage, it would be an ideal year to tie the knot. You will be more influenced by others and will listen to and adopt their ideas with greater interest. It's important to select people who are compatible with your interests, because this is a year of sharing for you. Surrounding yourself with positive, interesting people will bring better results.

This year also favors team work and political or social activity. You could find yourself in the public eye in some way. It would also be a good year for settling legal claims.

The most favorable period will be halfway through this year (from birthday to birthday), at which time you will be most receptive to this energy and better able to profit by it. You will ask for and receive help from people in the position to give you positive assistance.

Sun conjunction Saturn:

The weight of responsibilities and obligation could limit your freedom. You will have to organize your life during this year and tackle situations that you have put aside before. This astrological conjunction forces you to see things realistically. It is important that you become aware of this because, the more realistic you are, the more profit you will gain this year. You will probably have to forego, or limit, the time you normally spend on amusement and entertainment. You will have a more serious and responsible attitude; this will be a year of maturation.

But you could also feel alone and isolated from others, experiencing great difficulty in expressing your emotions. You may feel inhibited and have doubts about where you're going, which could bring about distress or depression. It is important to see things with good humor and optimism, and to work in a persevering way in order to achieve your goals.

This influence could weaken your energy level, and it is advisable that during this time you concentrate your efforts on the most necessary and important tasks.

Sun square Uranus:

You will feel dissatisfied with your daily routine and will attempt to change it in some way. Your behavior probably will be more abrupt and less patient than at other times. Your reactions will be unexpected and more violent. Watch your nervous system, since there is a strong tendency to suffer stress during this time. You will want to cut off many of your social or work connections if you feel that they limit your freedom in some way, or they are not in accordance with your new needs. Your relationships could also be affected and could suffer as a consequence of your need to make changes.

It is important during this time that you are permitted to pursue new experiences, sever relations with those who are prejudiced, or break traditions that were limiting your freedom. Your rebellious nature will show itself, and it is better to leave you a clear path. Most of the

events and problems will appear suddenly, and it is advisable that you respond in a constructive way. Take care to moderate your reactions to events so that you won't lose control over your actions.

It is also important that you remain flexible to change and not waste your energies during this year. There is a strong tendency to be too nervous and impatient, thereby attracting to you violence and accidents. Be careful with speed and with electricity.

Sun semisquare Moon:

Minor problems and conflicts in your home could alter the peace during this year. There is a possibility that problems from the past that haven't been resolved yet will resurface. You can't expect much support from your family in carrying out your plans.

It also is possible that you will have moments of doubt and indecision. You will be less decisive and practical, and you will tend to be more influenced by your feelings and emotions.

Chapter 3: The emotional world.

Solar Return Moon in Sagittarius :

You will have a happy year and will express your emotions with happiness and enthusiasm. You will display a spirit of adventure and will want to get involved in activities such as sports, travel, or physical competition that involved some risk and adventure. You will feel like being more physically active than you normally do.

The relationship with your mother and other women will be positive. Although there could be some disagreements, in general your relationships will be happy and you will take each suggestion with enthusiasm.

This would be an ideal year to take one or more long-distance trips. Due to your desire to learn and expand your knowledge, you will want to travel and visit new places. Because you will have an extra dose of enthusiasm and optimism, you will undertake enterprises that you never before have dared. One of the most important aspects this influence generates is a mentally positive attitude. You will be very willing to try almost everything and will be confident that you will achieve good results.

You might also develop an interest in exploring your spiritual and religious beliefs, searching for a deeper understanding of yourself.

It could be very difficult for you to remain still for any length of time or to stay in the same place during this year. Therefore, it is important for you to find an outlet for your excess energy.

Solar Return Moon in 5th house:

You will be inclined to make investments or take part in a speculative business that has a certain margin of risk. The earnings will be unexpected and could come through playing games of chance.

In addition, your physical attraction and personal magnetism will increase, which could bring romantic adventures. You will be drawn to seek out a life of pleasure and will want to have a good time all year. Other people will court you and you will receive countless invitations. This could cause trouble if you are in a committed relationship. You will also express your emotions in a more dramatic manner.

Your creativity will also increase. Search for ways in which you can express this energy that will enrich your daily life. If you have artistic talents, you will have a very productive year.

This astrological influence could also announce the arrival of a baby. In the chart of a woman, there is a clear possibility of pregnancy.

Moon square Neptune:

You could be more vulnerable to deception and deceit. You will be more emotional and sensitive than usual which will increase your susceptibility to the actions and emotions of others. You will not be able to see people as realistically as before which could result in your

being hurt or disillusioned by those you trusted. It's important to be aware of this and be more cautious than usual when dealing with others, especially those who you don't know well. You will be particularly vulnerable with women. It would also be a good idea to postpone making final decisions or plans, if at all possible, until this period is over. You could also be more easily victimized now.

There could be a state of confusion or mystery in your home. You could be the subject of gossip or malicious comments. Even those close to you could be the ones who betray or deceive you. Since you could be more gullible during this time, you should try to associate only with people you are confident you can trust. You will be working at a deeper, subconscious level and may find yourself recalling memories and traumas from your childhood which will add to the confusion you are already experiencing.

You should probably avoid activities such as consulting psychics or mediums for you could be unduly affected by them.

You will be more sensitive to toxins from alcohol or food. If you already are using cigarettes, alcohol, or drugs, you may want to increase your consumption and it will be very difficult to control it.

The best way to counteract this influence would be to give free expression to your creativity through some artistic or literary activity, and also to be extra cautious and perceptive in your personal relationships.

Moon trine MC:

You will have a very favorable year for your personal enterprises and your work in general. You will be able to rely on the support of the public, especially that of women. Changes in your professional activity will bring you in more favorable contact with others, achieving an increase of your popularity and of your success. In return, this will be reflected in your financial income and also in your creativity.

Your emotions will be in tune with your intentions and you will concentrate your energy in one direction. Your dreams and imagination will give you new ideas to improve your work. You will be able to rely on the support of your loved ones, particularly your mother and other women, for the achievement of your objectives.

If you are in a committed relationship, you may not receive the affectionate response you need this year, in spite of your attempt to show your love to the other person. In general, the possibilities for enjoyment and pleasure during this time will be denied because of the responsibilities and duties of your daily life.

HOUSE 8: Life and death issues, inheritances, and mysteries.

Solar Return 8th house cusp in or within 3 degrees of natal 2nd house:

Solar Return 8th cusp Conjunct natal Mercury:

Your principal ideas and your way of thinking will undergo a big transformation during this year. If you are self-employed, you will concentrate on making changes in your daily routine and will introduce new methods and techniques to your work and workplace. If you work in fields such as the arts, electricity or electronics, communication, or aviation, you will have a year of great productivity and benefit to you.

Not all of the changes will necessarily come from you directly but could be the result of collective input from others in the same industry as you. It's important to be flexible in making these work modifications so that you don't become unduly stressed. However, if you are truly dissatisfied with the work you are presently doing, you may find yourself making a radical change in your profession.

HOUSE 12: Limitations, enmities and hidden things.

Solar Return 12th house cusp in or within 3 degrees of natal 7th house:
